Marqueer's Message From Hell
"Then he said, I pray thee therefore, father, that thou wouldest send
him to my father's house: For I have five brethren; that he may testify

unto them, lest they come into this place of torment. Abraham saith
unto him, They have Moses and the prophets; let them hear them. And he
said, Nay, father Abraham: but if one went unto them from the dead,
they will repent. And he said unto him, If they hear not Moses and the
prophets, neither will they be persuaded, though one rose from the
dead." Luke 16:27-31. Listen to Moses and the prophets:
"Thou shalt not lie with mankind, as with womankind: it is
abomination." Leviticus 18:22.

"Hell from beneath is moved for thee to meet thee at thy coming...the
worm is spread under thee, and the worms cover thee." Isaiah 14:9-11.

"The same shall drink of the wine of the wrath of God, which is poured
out without mixture into the cup of his indignation; and he shall be
tormented with fire and brimstone in the presence of the holy angels,
and in the presence of the Lamb; And the smoke of their torment
ascendeth forever and ever; and they have no rest day or night."
Revelation 14:10,11.

Morgan's Sock

Lloyd remembers when he was young
He and Morgan had so much fun
Jerking off and sucking dicks
Had a beat-up trailer where they used to turn tricks
But the biggest kick Lloyd ever got
Was doing the Wild Thing to Morgan's sock
While Davey would be playing with his cock
Lloyd would hop on and bop it to Morgan's sock

Well, Morgan's sock, it's gross and shocking
But Lloyd couldn't get enough
If he didn't screw it once a day, he'd threaten to play rough
Oh Lawdy Mama, the shrieks and howls
As Lloyd was stirring that poor sock's bowels
And Davey and Steve ran for towels

But the years went by and the sock wore thin
Morgan found other guys to stick it in
Lloyd stands weeping by the washing machine
Sniffing his own sweat socks and creamed jeans
But he won't forget the kicks he got
Slamming it into Morgan's sock
Davey tries, but poor Lloyd cries
Thinking of Morgan's sock between his thighs

Well, Morgan's sock, it's gross and shocking
But Lloyd couldn't get enough
If he didn't screw it once a day, he'd threaten to play rough
Oh Lawdy Mama, the shrieks and howls

Hi Ben

Okay well there are a few basic possibilities here;

- Packet or AX25
More use in a multi station environment with interactive keyboarding going on. It was probably the most serious attempt at a data mode that happened to amateur radio - back in the late 1980's. (excluding CW , RTTY etc) Not great for file/image xfers as TX/RX times for fixed TX lengths and frame retransmit error correction means lots of time is spent in T/R switching and resending entire frames. The "original" packet standards were 1200 and 300bits per second or about 85 characters per second at the high end. Can be optimised to get around 110cps if you play with packet lengths etc. It used FSK which by todays standards is not a very efficient use of bandwidth. There is a LOT of software available for it. Early work tended to use external hardware (A TNC or modem hanging off a PC port) Nowadays there is a lot of s/w that relies on the PC soundcard to do the DSP work in encoding/decoding whatever mode you want. My perosnal favorite is Tom Sailors "soundmodem" code that creates the "modem" in software and then talks to (or supplies) the stack above that to talk vanilla AXC25 connect mode or TCP/IP etc. This code is available for both Linux and Windows platforms. Lookup "Flexnet" or "soundmodem". Good start point might be http://www.baycom.org. There are other software packages (eg MixW?) that use the soundcard but their names escape me at the moment.

- Narrow digital modes
These tend to occupy less than (say) 1khz b/w and work well with low power/low s/n situations. Pretty slow for file xfers many indeed not even allowing it without lots of user intervention. You may want to lookup PSK31, MT63, Olivia and so on. I also note someone has modified some PSK63 code and i/f to talk email through the normal clients. PSK31 for example is only 31 bits per second! I would not recommend any of these modes for file xfers unless you were fighting low signal levels. I for example am going to try some low rate beaconing of GPS data some day, hoping to get reliable info over maybe 100-200 miles on 2m SSB.

- RDFT Wyman encoding
This was originally touted as a "perfect" SSTV mode but in reality it sends any form of digital data. The code can be run both under Linux and Windows as a command line utility. There are a few front ends that make use of the underlying code (eg Digtrx). The code itself comes in two parts. One encodes the binary data to a wav file that can then be played with any media player through the PC speaker port to the radio input. The other takes a wav file as an input and converts it back to the

binary data. The front end programs tend to make this part easy as it recognizes the start of the stream to start recording said wav file. In its original form the RDFT code was made to work over SSB bandwidths with varying degrees of forward error correction (ie it doesnt need to retransmit because of errors) Data rate is in the region of about 85cps which is real good compared to SSB on the original FSK packet. I have personally played with the code and managed to get a 50% higher data rate over a FM voice channel. There was a rumour that the author was looking to make a faster executable for that purpose but I havent heard anything for a while. The original code description (at http://www.kiva.net/~djones/digmodes.htm - only Wyman 11-13 have been released) talks about character rates in the order of 250/sec. There are of course some limitations to this code. Maximum binary data size that can be sent in one session is 64Kbytes. No drama really as you could break files up before sending. It also requires a lot of CPU and memory grunt to decode. We are talking humungous memory use here, so much that it is often worthwhile decreasing binary filesize to less than (say) 20K chunks so that the OS doesnt swap RAM to disk and slow the whole process. From memory a full 64K file uses in the order of 800MB-1GB of RAM. What I am trying to get at is that it would be real difficult on older PC equipment or a PDA.

I should point out by the way that RDFT is also available as a modem inside of packet and can supposedly do 2500bits/sec on HF/SSB. This is available in the soundmodem/flexnet package. It is called Q15X25 or NEWPSK.

It would take me a lot of time to assemble all references to software so I am hoping the above will steer you into a specific direction. If you'd like to expand on your possible usage I might be able to steer you better. I'd need to know what kind of radios you are talking about (eg FM vs AM, VHF, HF, intended use/range).

Cheers Bob VK2YQA

On wifi 2.4GHZ transceivers they require to be FCC certified:

Are vendors required to supply FCC numbers by law to inquiring
customers?

Are radios that have been modified such as placed in an enclosure with
antenna required to be recertified by law?

What is the real-world policy of the FCC on the above two questions?

Thanks, in advance, for any helpful answers

"Certified" basically means that the device meets or exceeds all of the
requirements set forth by the FCC.

Possibly, depending upon the type of device. What "number" specifically?

> Are radios that have been modified such as placed in an enclosure with

Not if you did it yourself and have no intention of marketing it.

"Certification" or "Type acceptance" is basically used for mass marketing
letting the public know that the device does meet the minimal requirements.

you do not post correctly you lie and misrepresent the fact that you
claim misspelling is proof of inferioity is amoug your dishonorable
untruth If mispelling were proof of stupdity then Albert Einstain would
be reckoned one of the dumbest men on earth
...
It is not only your misspelled and awkward posts that brand you as stupid,
but your insatiable drive to respond to each and every post made whether you
know the person or not. You, Mark, simply do not know when to leave well
enough alone. It has been documented that you made over 800 and perhaps 900
posts (using sockpuppets) in June alone. Is this the watermark of an
intellectual giant? You post idiotic, third grade level one-liners day after
day after day while at the same time saying nothing. You, Mark, are the sum
of your posts and one can, and must, draw the conclusion that you are not
overly bright. I misrepresent nothing and have not lied. I DO post correctly
and any attempt by you, a nonentity, to judge or malign me is of no
consequence and has absolutely no merit. You, of all people, certainly have
no room to pass judgment.
...

the inablity to reconize the diefferent between statements like "it
would take killing you to stop you from posting" and what would be a
true death threat "I will post stop you from posting by any means
neccasary. Indeed thatI use langauge better than ost of you is clear
proof I am not any of your inferior
...

Aw, garsh. Did someone actually post such comments or did you twist them to suit your purposes? If such comments were made then perhaps, just perhaps, they stemmed from your constant flooding of the groups with your juvenile drivel. Has it not yet dawned upon you, Mark, that you are one of the least popular posters hereabout? You rank only one half step below the most reviled poster of all time, that being Roger Wiseman.
And Mark, your delusion "thatI use langauge better than ost of you " is just that...a delusion. 800 misspelled posts in a single month quickly lay that claim to rest. You clearly DO have mental superiors in these groups and they are many. You are not as intellectually gifted as you like to comport yourself to be. We all have mental superiors and I just happen to be one of yours. I am not bragging...it is merely how life is. Learn to live with it, Mark.

PS: Thanks for the comedic relief. Who the heck is "Albert Einstain"? Is that the chubby little Cosby kid whose clothing was always food-stained and dirty?

Harken back a few months, Mark. It was Roger who made the post threatening to send your posts to your father-in-law. You even asked him why he'd want to do that to an elderly man.
There were no "confederates", merely Wiseman getting under your thin skin. Again, as you often do, you have either forgotten the facts or, more likely, are lying to suit your own purposes.
In short, Mark, you are a liar. A bold-faced, underhanded liar. How about telling the truth once in a while? Not that you can....

What false claim, Morkie?

You DO have "intelectual superoirs" in this newsgroup.

Mostly they are the one's who spell it "intellectual superiors",
which is the correct spelling.

Had you attended even ONE of the college programs you allege (or
even graduated a decent high school program), you'd know that.

To be completely fair, I have three addy's in this forum, but you
are absolutely correct that they are my real name and call sign.

Well, Morkie is nothing if not ignorable...As he should be.

As for his gender-bending rants, he's been told over and over that
if he'd stop making an issue of it and stop responding to it, it WOULD
eventually stop.

However he keeps throwing more-and-more fuel on that fire, and the
results are predictable.

There's not one ounce of ink spent in any of the "legitimate"
media that even remotely supports Morkie's contentions, and none of it
here.

However he takes any reference to himself, by virtue of the fact
that he does only hold the Technician-class license, as part of this
imaginary, rediculous crusade that he refers to.

Just more proof of his delusionla character as far as I am
concerned.

Lately Morkie has taken to "granting forgiveness"...A god-complex
if I ever saw one.

Between that and his suggestions that he's "persuing justice for
all", I'd say he's got a real bad Super-Hero-Wannabe complex that needs
to be dealt with.

Ahhhhhhhhhhhhhhh....More "I Am A Victim" whining.

"Getting used to" being an idiot was what your parents and
teachers did to you, Mork. For you it's just a learned characteristic.

Dyslexia is treatable.

Using a spellchecker is the first step in this media.

You know this but refuse to do it. That makes you an idiot.

Hear, hear.

Tom Cruise has openly spoke of his own dyslexia and the chalenges
it imposed, but HE took the steps to overcome it.

Morkie can't step over a pile of dog doo.

Forget common sense, "666"...That's as foreign to Morkie as
English is.

> > you are a cowwrd and clearly without honor

This from the guy who spent more than a year insisting that he was
a Colonel in the United States Army, who uses the memory of dead
children to fight his newsgroup battles, and continues to use deceit
and dishonor as tools of those "fights".
...
> Was that supposed to cut to the core of my being? Upset me? Send me crying?

Morkie's been told by numerous people that fixing his grammar
might actaully put him in a position to say something meaningful that
people might actually respect, however he'd rather keep his image as
Court Jester.

I am sure he does, considering his recent propensity for granting
"forgiveness".

to 666 I am persuing justice indeed MY ENTIRE carrer in RRAP is one
long persuit of JUSTICE. I referr you that Peom t"they came for the
JEWs and I was not a jew .. something like that

coment to do are due in opposition to hate and paranoia and bigtry
where ever I find them

the only type I am not trying to is the sick anti Islamic stuff (simply
too much of it for me it saddens me to have have let that go but it is
a wind no tree can stand in)

the effectiveness of the prusuit is another matter

Robeson I am big enough secure enough in MY ego to forgive even you
although It would be nice if you did not pussh that quaility of mine so
much

It is in the power of Every MAN (or woman) to grant forgiveness that
you seem to think it is reservsed solely for God shows several things

one that you are an Unforigiving bully

ah yes Maj small minded Robsen I do persue justice for all as should
you if you were Christian as you imply

I preform my Duty as Human being to do what I can in that effort

Those efforts are of course limited by my status as a Mortal

as you see Robeson just shows up to spark and inspire his troop
(wiseman and his legion of alias)

I suppose it does show Robeson is a leader of sorts

Of course.

And in more ways than you'd ever be able to know, Morkie. Mostly
because it requires an IQ greater than your belt size...Which in your
case is considerable, but it's still well within what is considered

You'll be roasting in hell, queer:

Marqueer's Message From Hell
"Then he said, I pray thee therefore, father, that thou wouldest send him to my father's house: For I have five brethren; that he may testify

unto them, lest they come into this place of torment. Abraham saith unto him, They have Moses and the prophets; let them hear them. And he said, Nay, father Abraham: but if one went unto them from the dead, they will repent. And he said unto him, If they hear not Moses and the prophets, neither will they be persuaded, though one rose from the dead." Luke 16:27-31. Listen to Moses and the prophets:
"Thou shalt not lie with mankind, as with womankind: it is abomination." Leviticus 18:22.

"Hell from beneath is moved for thee to meet thee at thy coming...the worm is spread under thee, and the worms cover thee." Isaiah 14:9-11.

"The same shall drink of the wine of the wrath of God, which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb; And the smoke of their torment ascendeth forever and ever; and they have no rest day or night." Revelation 14:10,11.

That's what happens when you dumb things down. Having a license doesn't
mean anything and they leave. Technology certainly didn't keep them in
the service.

Dumbing things down more will just let retards on HF.

I am a Canadian with serious chronic health problems and I have much more experience with the health system than I would like to have, I have come close being a silent key several times, I am sure that there are some who feel that is too bad that I was allowed to breed before my medical problems became obvious. In the minds of some I suppose that I have peed in the genetic pool.

I have never heard of a Canadian hospital shutting down because the money did not last until fiscal year end. While there are some weaknesses in our system such as delays in elective procedures but when the sand was running out of the hour glass there was always a system to help me out. Here everyone can get insured, there is an option to opt out of medicare but who would?

Think of the overhead that American doctors face having to deal with multiple insurance companies, each with different forms and procedures. Think of the people who can't get medical insurance no matter what the cost. Think of those who don't have because they can't afford it. And then there are those who exercise their right not have it.

In a situation where people get treated but can't afford to pay, the rates for everyone else must go up to compensate.

Canada is not perfect but it is a pretty nice place to live and we try to contribute as best we can.

By the way, if I were an American I would vote republican but I am not a single issue voter so don't construe that to mean that I from the far right wing. Consider me a fiscal conservative with a social conscience.

No, it's what happens when give people tests that are irrelevant to the state of the service and the world today. It's what happens when old timers keep the impression alive that ham radio is about code, tubes and other worthless old "technologies". It's what happens when we try to gate people out by making them pass the same worthless crap we had to pass because, "well I had to do it so they should have to do it" mentality.

We already have a bunch of "retards" on HF and have for the thirty plus years that I can remember. Testing didn't keep the low-lifes out then, and it is not going to do it now.

Learn to face reality. The old tests are what has brought on the problems - especially the worthless code tests.

It's not about "dumbing down" the testing. It's about the need to modernize the testing, and our hanging onto the old and outdated for far too long, that has caused the problems we face today.

Interestingly, my wife is also a Canadian, she moved down here to the US just before we got married. She worked only part time in Canada. Aparantly, the health care is NOT universal, as many meds she needed she had to pay for out of her own pocket, and had to wait months for an MRI (She just had one here on one weeks notice). Yup, there are issues here too, but the Canadian system is far from perfect either.

There are delays I will admit that. Universal means that everyone can
participate it, it does not mean that it covers everything. I also have
private insurance to cover drugs, dentistry, the surcharge for private
hosptital rooms etc. I guess that I got really ticked off when the guy
said that hospitals routinely close because they run out of money, that
was bull and it really ticked me off. Please excuse my sensitivity.

nope nobody failed that day and I took and passed the general test for
a CSSE and no one else even took such an exam that day

the written test are fairly you insist they are yourself (wether they
are too easy is point we disagree but not that they are easy)

you are simply stupid enough to think you can jusdge a persons
intelegence for their first drafts esp when someone has dyslexia and
aphasia

no need for much to pass with a degree is Physics and MS Geophysics
(and I specailize in Sesmic wave propagation BTW which is not al
toghter unlike RF prop in its math)

Uh, it's choo-choo, NOT "cho-cho". If you are going to slam somebody,
make sure that -you- don't come across as being a little, how shall I
say it, slow.

you have a reservation in hell,faggot.

http://www.thesignsofthetimes.net/

http://www.godhatesfags.com/fags/fag.html

The word "fag" is a contraction of the word "faggot" (or, "fagot"). When traced through its etymological history, the word "faggot" simply means "a bundle of sticks used as fuel." See dictionary.com and thesaurus.com (where such words as "fuel" and "brimstone" are used as synonyms). "Scholars" can't decide when such a word began to be used in reference to homosexuals, so we'll give the answer here: "I have overthrown some of you, as God overthrew Sodom and Gomorrah, and ye were as a firebrand plucked out of the burning: yet have ye not returned unto me, saith the Lord." Amos 4:11. The word translated "firebrand" is the Hebrew word "uwd," which comes from a Hebrew verb meaning "to rake together" (or, "to gather together"). In short, the Hebrew word "uwd" is talking about burning sticks of wood that are gathered together. That is what the English word "faggot" means. Amos 4:11 could just as easily be translated "...ye were as a faggot plucked out of the burning..."

For those geniuses out there who are asking, "are you saying that God hates burning pieces of wood?", the answer is "no, we're using it as a figure of speech, just like the Bible uses it." It is an excellent metaphor to describe sodomites because they fuel God's wrath, they burn in lust, and they will burn in hell. In Amos 4:11, the "fag" is the person who is sinning after the manner of Sodom and Gomorrah, has seen other "fags" overthrown by God, and still refuses to repent. So, the word "fag" refers to people who sin like the Sodomites did. It not only

refers to homosexuals, but also refers to people who support homosexuals (see Romans 1:32), and people who engage in all other relatively "lesser" perversions (like impenitent premarital sex and adultery, including the adultery of all of you divorced-and-remarried "born again Christians"). On this web site, we use the word "fag" in accordance with Amos 4:11.

For those of you who have deluded yourselves into thinking that the story of Sodom isn't really talking about homosexuals, read the following: the people of Sodom and Gomorrah had completely turned away from God, and whenever that happens, homosexuality abounds. Paul described this in Romans 1, and you can read the story of Sodom and Gomorrah in Genesis 19. Conditions in Sodom were so bad that it had become acceptable for men to surround Lot's house and ask to have sex with the men inside. Anybody who thinks that today is any different than those days needs to attend San Francisco's annual gay rights parade, stand along the parade route, and hold a sign that says "GOD HATES FAGS." You'll see and hear evidence of all of the sins of Sodom in just a few short hours (sodomy, violence, fornication, adultery, pride, sinful treatment of the servants of God, etc.) The same mob mentality that ruled the unlawful fags in the days of Sodom rules the unlawful fags today.

Considering that over 90% of the Babble was made up centuries after the fact out of a bunch of twice-told tales, by a bunch of Jewish priests during the Babylonian period (in the OT), and a bunch of delusional Xian fanatics (in the NT, though that was largely just a century or two afterwards), may I just say in reply, "Bahhhh-RING IT!"?

The loud and flaming queer Demon of Mockery, off to a couple of Pride parades in Vancouver, this weekend

I used to belong to a youth group 20 yrs ago at some
fundie church in PA. There was more nookie being
passed around at that 'church' than at the playboy
mansion after hours. Xians are so full of condensed
monkey shat.

Hello,
I am an amateur operator, and when I lived in Illinois and Georgia, I was able to get call-sign plates at a discount, since the state recognized the valuable service provided by ham operators.

Now I live in Tax^H^H^HMassachusetts, and was looking at the RMV website. It looks to me that the renewall fee for ham plates if $43 instead of $41, and it is due *every year* instead of every 2 years for regular plates.

Could some ham in MA who has callsign plates confirm this for me? It sounds a little extreme, even for MA...

Here's the web site:
http://www.mass.gov/rmv/fees/registration/index.htm

Thanks - Steven

Listen, Dimwit. A question may imply just about anything, but it is NOT
libelous. Ask any politician who has been questioned by the Press. It is a
question. Libel is a false statement made about another, not a question
asked. Perhaps you have a guilty conscience?
Take your tale of woe to an attorney, Mark. Whine to that attorney that
"someone" whose identity is unproven, "implied" anything via a simple query.
This is hardly grounds for YOU to accuse someone of Libel. In fact, Mark,
take your tale of woe somewhere else altogether. Your mental superiors have
been dragging you over the embers for several weeks now and you still seem
to not be capable of grasping that fact.
Another fine point of Libel is that, should I say, "In my opinion, Mark is
lying about his EME contacts." that is an opinion, NOT libel. If I were to
make a simple statement, "Mark is lying about his EME contacts.", well, that

might be construed as Libel though hardly actionable by any court of law.
So, Mark, in my opinion you are spamming this group with your near insanity
and pointless posts.

Mine ARE straight. Neither myself or Steve or most others have made libelous
comments. Roger Wiseman, on the other hand, is another question. Yes, he HAS
made numerous libelous statements, but the onus of proof is upon you, the
person allegedly libeled, to prove the fact. This will be a difficult task
for you to undertake, Mark. First, finding an attorney, any attorney, to
take your case will be nigh unto impossible. Second, the cost involved for
you to take legal steps to trace and then subpoena records from various ISPs
will cost many thousands of dollars more than you have. Third, even if you
were to undertake such an unlikely endeavor, what will you realize? You can
file a civil suit, sure. But the outcome of that can take years Mark, and
the legal costs you will incur will be hardly worth the effort. Do you want
to pay thousands of dollars to sue Roger for a few hundred dollars in
court-ordered compensation?
My advice? Stop your whining, then put up or shut up.

Background:
Tired of listening to Led Zepplin or NPR on your I-Pod? Wouldn't you like to be able to carry with you the kinds of ham radio conversations that you listen to while in your radio shack?
Mike, KL7R, in Juneau, Alaska, and Bill, M0HBR, in London, England meet regularly on the ECHOLINK system to discuss their homebrew radio projects. We are making them available as PODCASTS.

NEW RSS FEED: You can subscribe to the program, have them downloaded to your MP-3 player, and listen to them at your convenience. To subscribe, just cut and paste this URL into your I-poder (or similar) software. We've been having trouble with our Ourmedia RSS feed, so Mike (software wizard that he is) has homebrewed his own RSS feed. In order to subscribe to SolderSmoke, point your podcast software to:

http://kl7r.ham-radio.ch/soldersmoke.rss

If you don't have an MP3 player you can just go to the site below and listen to the latest program (and earlier editions) using the audio software on your

computer.

http://www.ourmedia.org/node/250909

Here's the homepage for our show. All our programs are available here. There is also a blog and links to some of the sites and documents we've been discussing: http://www.ourmedia.org/user/36170

We hope you enjoy the program. Please send us feedback.

I am not "whinning", Mark. I made statements of fact. Twisting my comments

For you to delude yourself that you "might" realise "250k" as the result of

This ain't Judge Judy, Mark. You go ahead and hire a $500 per hour attorney,
if you can find one to take your case. The attorney will want at least five
grand just to take your case and read the background.
And just suppose, Mark, that the person you manage to present a lawsuit

accusation of Harassment/Stalking that can go along with such a countersuit.

You are in a no-win situation here, but knowing your lack of shown intellect
I doubt my words will have little effect upon your otherwise weak stance.

Get your money out, Mark. Goodbye retirement. Your attorney will only

I hear with LSB/USB get further than AM but is the LSB really wide enough

all day long, but the band width is to narrow for anything like nice music
audio... Speech is nice though. Maybe there is a wider AM filter than stock,
some Ham wizardry to make it fit a decent audio element on to the carrier,

Gather around the legal frequencies this evening at 14.331 as we get a forum of LEGAL Hams together to discuss the nefarious activities of Toad and Roger. Look for this forum to begin on or about nine p.m. eastern time. Toad cannot join in, nor can KB9RQZ, since they are not licensed for this freq. The frequency he is using is legal with an output of 10000uV/m at 30m.
That's a pretty good signal just to play with. This can go quite a long ways
via skywave, and even a good distance via ground wave with a sensitive
receiver.

yup that's QRP alright.

you just think you do

no empty threat made

indeed no threat of litigation made

that the problem you and steve insist on making

you claim a statement means more than it does

I have claimed I am looking into the mattter. I am

I have discussed the matter with an attoney. I have.

I claim I have an appoinment to go over the matter further. I have

>You have not the financial resources and nary an attorney in
> your area has the expertise to undertake such an endeavor.
I certainly have the resuorces that is another mistake you make "not
lloyd"

and nobody said I was limted to my area although I have not consulted
with an attnorey in Wisconsin or Texas or Indiania or Illinois. Why
the other states? good question I have mentioned I would not be the
sole Plaintiff. Indeed based on some of what my reasearch I might not
be a plaintiff at all personaly, but your firends (wisemen and Robeson
have spreading around the libel of my family (of which only I post
here) pretty generaly, and I realy don't who sue them and the other fat
target in my sights, as long as it get done

Not sure if I can sue but surely intend to find out

and If can or a member of family can, (with a reasonable chance of
sucess) it will be done

Indeed another goal of my research is to see if I can locate the law
and lawyer in WV and provide enough to enable Dave Hiel to move aginst

Wisemen. if my reasearch provides merely that at this point I will aprouch Dave heil who dispte our differences might be willing to ally as the enemy of my enemy theory

indeed you got that right, but then Don Quoitte (how ever it is spelled) is one of Nicknames in certain circles

Want to get on the air and do a little code? We will start at about
20wpm to make it easy for you. Oh, forgot, you're a cber, too dumb and
lazy to get a ham license.

Markieboy, like the Toad, Steveo, and Woger have no life, that's why
they spend every waking minute on the Internet hurling insults.

Don't flatter yourself, Mark. Dave neither needs your help nor will he be

Here is the truth about the sunspot cycle. We are now at or very near the very bottom of the sunspot cycle.

I am in NC, and I could hear music on that freq around 9 am dst, I don't recall the exact time.

I have a 52 ft vertical, and QTH at 4200 ft above sea level.

I'm running a homebuilt transmitter. LSB seems to work for me because
I'm not running the transmitting in stereo. I think you might need some

I ain' wanted to listen in to that so-called "net" since they started
letting that PATHETIC OLD WINDBAG in from 9-land
check in. He monopolizes the net -far worse- than that other
windbag from Sarasota used to do Years ago by playing his
20 year old worn out Media-Monitor tapes and other monologing.
He's also managed to drive away more than half of the old time
net checkins as well. Stick a fork into it, Lib net's done and cooked
and ready to be served with potatoes and gravy.

I really miss ole "Sid da Lid" and his hogans heroes tapes.
Suprised he ain't in the Alzheimer's Ward with KJI and his
depends undergarments yet? Amazing how fast these old
ham radio bastards burn out and become a permanent
fixture in the senior's rest home or better yet 6' in the earth
and we can get their radio gear cheap at the estate sale...(grin).

If Heil deals wth Wisemen then I don't have to

I am not stalking Robeson.

Indeed Robeson can stop this at any time he chooses. He has but to
retract his accusastion that I (or my father or any mmeber of my
family) have comitted any criminal action that he alleges, (that
includes his allegations that I am child molestor, a rapist, that my
father has abused, that I or other have cominted fraud have been
forcibly confined) and agree to stop making sexuality an issue in RRAP
and the Radio NG maning he must stop accusing anybody of being who
does not come out of the cloest on their on desist from make his un
suporteable accusation that BGLT's are mentaly ill Finding of the APA.
Or alternitively he can agree to leave, or perhaps if he has some other
proposal something else could arranged

indeed if I knew who you have also comitted actionable libel by making
a unfounded accusation of a criminal nature calling me a retard or
faggot is one thing Lloyd accusing me a crime is another

I can easily prove I have never commited stlaking by being prove that I
have not threatened him with bodily harm (informing him that Iwill
exercise self denfense if he approuch does not count)

he can call me stupid all day so can you.

Lloyd you have accused me of crime. Stalking is a crime. Seems realy

I am not stalking steve I posted on RRAP from about 1998 to 2000 and
then again starting in 2005 to date

but as someone quoted last year the michigan staute on stalking threats
area required element of the statute therefore if someone can prove
they did not prefrom all the required elements of the crime they can
proove themselves innocent of that crime, and further the bruden is to
proof that the accused is guilty not the other way round
>ou are on record, Markie, and there are

most likely in excess of a thousand, but your point?

it seems to be that you are alleging in choosing to defend myself I
lose the right to defend myself

some of my posts would compcate the matter I agree

that is one reason of course I may not be the one sueing him it may
well turn out the best plaintiff is not myself but my father or my
father in law or my wife

>In fact, Mark, Robeson already

he can try to file them but he will have trouble justifing that when
his his post about me after my return he choose to accuse me of federal
and state crimes, his first act upon my return to RRAP was to libel me
at that point I had not posted in RRAP for rough 4-5 years
> If you had half a brain, and you show no indications of such, you would get

why should I worry?

I beleive Steve (foolish as that sounds) when he claimed last December
has contacted a lawyer and was informed he had a case. I beleive that
and then the lawyer looked at his cleints action and likely also found
that the client (who has claimed I could be confined to jail in TN for
something related to another civil suit he was going to file) found out
hteve facts were not exactly as stevrealted them to the lawyer. (to be
clear I am NOT syaing Steve LIED to lawyer I saying I beleive steve
left what out matters that were legaly relavant, not to comite fraud
with the lawyer but simply because he did not reconize them as
something the lawyer needed to know. I am stating that steve desn't
know legel matter that well in my opinion)

solution in this context likely means roger death or serious injury is
a phrase choose becuase I beleive that is truely the only ay to stop

some serious violence to the man. It would benifit me yes but remeber
Dave would not be doing it to serve my ends indeed knowing it would

It is a shame that one or two individuals spend so much time making fun of Mark Morgan. I am a friend of Mark's and grew up not far from him. I've known Mark most of my adult life and feel that I should come to his defense.

Mark was always a nice kid and never made much trouble in the neighborhood. When we were in seventh grade Mark had a crush on a gal who had a Daddy who was a rapper. Mark would leave her Stickum love notes and tell her he "luved" her. The first love of his life got pregnant a few months after. Mark was devastated. She was only fifteen, but had been in seventh grade for three years.

Mark moved on and soon found other gals to pursue. He had little luck, however, but did find a little 300 pound sweetie that suited his fancy.

Unfortunately for Mark this budding romance fell by the wayside because the gal was his cousin. His parents put a halt to that because they know what can happen when cousins date; They are cousins, too.

Mark never did have a blow-up doll for a bed partner. Those who say he did are liars. He didn't need one. He had made himself a rabbit fur mitten that he called Alice, and he'd get Alice out and take advantage of her after his parents went to sleep.

To this day Mark keeps Alice under his pillow. She is his one and only true friend in the dark night hours.

Please stop picking on Mark. He means well but he is not "all there", if you know what I mean.

crime.

but acusing me of being a Child molestor is accusing me of a crime Not
lloyd

he can call me stupid all day so can you.

Lloyd you have accused me of crime. Stalking is a crime. Seems realy
silly to have to say it but if you say someone is stlaking you are
accusing them of a crime

I am not stalking steve I posted on RRAP from about 1998 to 2000 and
then again starting in 2005 to date

but as someone quoted last year the michigan staute on stalking threats
area required element of the statute therefore if someone can prove
they did not prefrom all the required elements of the crime they can
proove themselves innocent of that crime, and further the bruden is to
proof that the accused is guilty not the other way round

most likely in excess of a thousand, but your point?

it seems to be that you are alleging in choosing to defend myself I
lose the right to defend myself

some of my posts would compcate the matter I agree

that is one reason of course I may not be the one sueing him it may
well turn out the best plaintiff is not myself but my father or my
father in law or my wife

>In fact, Mark, Robeson already

he can try to file them but he will have trouble justifing that when
his his post about me after my return he choose to accuse me of federal
and state crimes, his first act upon my return to RRAP was to libel me
at that point I had not posted in RRAP for rough 4-5 years
> If you had half a brain, and you show no indications of such, you would

why should I worry?

I beleive Steve (foolish as that sounds) when he claimed last December
has contacted a lawyer and was informed he had a case. I beleive that
and then the lawyer looked at his cleints action and likely also found
that the client (who has claimed I could be confined to jail in TN for
something related to another civil suit he was going to file) found out
hteve facts were not exactly as stevrealted them to the lawyer. (to be
clear I am NOT syaing Steve LIED to lawyer I saying I beleive steve
left what out matters that were legaly relavant, not to comite fraud
with the lawyer but simply because he did not reconize them as

something the lawyer needed to know. I am stating that steve desn't
know legel matter that well in my opinion)

A name to refer to me by? You can cease attempting to ingratiate yourself
with me. You can call me Sir.
I am your intellectual superior. I am in no way one of your compatriots.

well accusing me of fraud is more libel steve

and make up your mind

first the QSO's never happened then you claim somebody else made 'em

who do you sugest made em My wife well you used the male pronoun to refer to a female in that case

nope you are lying there

you know nothing of the sort

you think you do but you don't know and neither do I although based on the pattern they came in in the first pace I belive the first 5 were deifnately proper (and I have email from 2 of them which ofcourse could be fakes since they are forgein station with out email addies in thier QRZ listing

right now I am locating persons able towrite in the langauges of the forgien contcts I belive may well be valid and I didate a letter of explanation, send with my QSL card irc (or 2 and envelope) in the letter I will ask them to conrifm or expressle deny the the contacts. I hope the hams overseas will be helpfull to answer such a plea

In 3 other cases now I do claim the contact they are USA calla and 2 of them have email addies that check out in QRZ claiming and seeking to confirm contact with me via Metor Scatter . I had not considered this and frankly am I impressed to three sates to my log without it being by the EME path I adknowledgeI a made a mistake in claiming them as EME/ I believed them to be at the time. They are however still contacts and if it were safe to say more I would

When Doug and Kathy visit they stay in his guest house, the grease pit
behind the store. Kathy says it's just like home.

Y-Man don't care too much about " the wife" lately, as he's on tour
with his leading ladies. He ain't worried about Sir Sidney or Kind
Jewis Indian or Father-And-Mother. His main concerns lately are
Cynthia and Madelyn and Janet. But maybe not in that order.

3D2 and 3D2/R, FIJI AND ROTUMA (Op Cancelled!). Operators Didier/F4ELJ, Andre/F0ELK and Christophe/F0ELI had to cancel their operations to Fiji and Rotuma due to transportation problems. More information is available at: http://3d2bd.free.fr

4O6, MONTENEGRO. It was reported today by Joe, W8GEX, that he and four other members from the SouthWest Ohio DX Association are going to Montenegro on August 13th for a 7 day operation at the Sky Contest station. Check out the Sky Contest Club at: http://www.yt6a.com/?page=3Dskycc
YT6A owns the club station, and they will be operating from on top of a mountain. The location is about 1000 ft high with a very nice station and building. They should arrive at the station late on August 13th. By the time they get up the hill (a very rocky road that will take a hour to climb the 1000 ft. in a 4x4 Land Rover), they should be on the air on the 14th, GMT. Their callsign will be 4O6DX. Team members are Wayne/K8LEE, Janet/W8CAA, John/ KP2A, Jim/W9VNE and Joe/W8GEX. The group will be on 160-6 meters, CW, SSB and PSK. The group would like to thank their sponsors, ICOM for the Pro III radios; N3FJP for their logging program; Dave/W5BXX and SEDCO for their support. They would like to give a special thanks to Ranko, YT6A, who has coordinated the trip since shortly after Montenegro became a new DXCC entity. QSL to K8LEE - SASE PLEASE.

5Z, KENYA. Nick, G3RWF, is planning to return to activate 5Z4LS again next November for the CQWW Contest. He is expected to probably stay a few more days than last year. Nick is planning to use the Radio Society of Kenya clubhouse in Nairobi again.

6V, SENEGAL. Paul, K1XM, will be active as 6V7D during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band/Low-Power entry. His activity will start November 19th. QSL via KQ1F.

9G, GHANA. Scott, AC3A, will be active as 9G5SE from Accra, August 5-12th. Activity will be on 40-6 mters.

ANTARCTICA ACTIVITY. Oleg, R1ANF, is active for about 2 weeks from Priroda Refuge (RUS-15, new WAP reference). This refuge was installed during the 32nd Russian Antarctic Expedition, February 18th, 1987, and is located at King George Island (South Shetlands), NW of Fildes peninsula, 8 km from Bellingshausen station, at 62°09' 00" S, 58° 56' 35" W. His callsign will be R1ANF/p. QSL via RK1PWA (QRZ.com). Check 14023 kHz starting from 1800z and ahead. More info and pictures on WAP Web site at: http://www.ddxc.net/wap

CQ NEWS RELEASE. Richard Moseson, W2VU, Editor of CQ Amateur Radio, sent out the following on August 1st:
STEVE BOLIA, N8BJQ, NAMED CQ WPX AWARD MANAGER
(Hicksville, New York - August 1, 2006) - Steve Bolia, N8BJQ, has been named the new manager of the CQ WPX Award program, following the retirement of Norm Koch, WN5N (ex-K6ZDL), CQ Publisher and President Dick Ross, K2MGA, announced today. The WPX Awards are issued for confirmed contacts with stations having different callsign prefixes. Norm held the reins of the WPX Award program for 25 years, taking over the job late in 1981. "We thank Norm for his many years of devoted service to the WPX program, to CQ and to amateur radio," said Ross, "We wish him all the best in the future." Steve Bolia, N8BJQ, served as CQ WPX Contest Director from 1982 to 2003, is a member of the CQ Contest Committee and of the CQ Contesting Hall of Fame. His DXing credentials are even more impressive, as he holds CW, SSB and Mixed Worked All Zones (WAZ) awards, is on the DXCC Honor Roll

for Mixed and CW, and holds 5-Band DXCC, RTTY DXCC and 160-Meter DXCC. He has also made several DXpeditions, to KH9 (Wake Is.), J6 (St. Lucia) and the rare CQ zone 2 (northeastern Canada). Professionally, Steve works as a defense contractor after retiring from a 22-year career in the U.S. Air Force. WPX Award applications and updates previously filed with WN5N have been transferred to N8BJQ and will be processed as quickly as possible. See the September issue of CQ for updated address information for award submissions.

IOTA NEWS.....
AF-103. Just a reminder that Ken/G3OCA and Rei/DL6DQW will be in Mozambique (C9) from August 5-14th. During their stay, they plan to activate the Island of Inhacamba (AF-103) the last unactivated IOTA group in Mozambique. The callsign may be C94KF. QSL via G3OCA. Activity will be on 40-10 meters, CW and SSB. Also, look for them to be active from the mainland using the callsign C94RF or C93RF.

EU-013. Russell, G5XW, will be active as GJ5XW/p from Jersey's Channel Islands between August 26th and September 1st. Activity will be on all HF bands, SSB only. QSL via G5XW.

EU-014. Gerry, IZ1DSH, will be active as TK/IZ1DSH from Porto Vecchio, South Corsica (IIA TK-001, MIA MCO-001, WLOTA LH-1390), now through August 15th. Activity will be on 40 and 20 meters SSB. QSL via his home callsign through the ARI Bureau.

EU-038. (Satellite Op!) Andre, PH7AT, will be active as PH7AT/p from Texel Island (WLOTA LH-0003) between September 4-8th. He will be operating mainly with a QRP handheld (5w) on satellites (AO-27, SO-50, AO-51, AO-7, FO-29 and VO-52). There may be some HF activity if his schedule permits. QSL via his home callsign, direct or by the bureau.

EU-042. Ten operators from the radio club station "Fachhochschule Wolfenbuttel (AFu-AG)" will use their club callsign DF0WFB, August 17-20th, from Hallig Oland Island (WLOTA LH-0712). Look for activity on all bands and modes. QSL DF0WFB via the bureau or direct with SAE + sufficient postage.

EU-054. Giovanni, IK1WEG, will be active as IF9/IK1WEG/p from Isola Favignana (IIA TP-011, MIA MI-025, WLOTA LH-1545), now through August 19th. Activity will be on the HF bands. QSL via his home callsign, direct or by the bureau.

EU-090. Operators Neno/9A5AN, Gita/OM5MF, Lubo/OM5ZW, Steve/OM5AA and Martin/OM4ATW will activate Palagruza Island, Croatia, (IOCA CI-084, WLOTA LH-0057, CLH -100) between September 2-9th. Last operation was in 2003. Activity will be on all bands, HF and VHF. Neno will sign 9A5AN/P and all others will sign 9A/homecall. More information about the operation, operators and island is available at: http://www.palagruza.net

Palagruza Island is situated in the middle of the Adriatic Sea,
between the Italian and Croatian coasts. The island itself is
1400 m long, 300 m wide and 90 m high. The lighthouse is old,
and was built in 1875.

EU-125. Michael, DL3FCG, will be active as OZ/DL3FCG from Bolilmark,
Romo Island (NS-001 for the Danish Islands Award), August
5-19th. Activity will be on all bands, CW and SSB. QSL via
his home callsign, direct, by the bureau, or LoTW.

EU-145. Operators Luis/CT1EEQ, Arlindo/CT1EGW and Carlos/CT1END will
be active from Culatra Island (DIP AL-001), August 12-13th.
Activity will be on 80-10 meters SSB. QSL via their home
callsigns. Further information will be available at:
http://ahrap.no.sapo.pt
If you have a serious need for a EU-145 QSO let them know.
Send an E-mail at: carlosnora.ct1end@gmail.com

GREEK ISLANDS TOUR IN NORTH AEGEAN SEA. Operators Nicos/SV2AYT, Bill/SV2AOB,
Bill/SV2BET, Alex/SV0EG and Kostas/SW2IPK will use the special callsign
SX8AYT to activate the following Greek islands, in the EU-049 IOTA group,
between August 16-30th: Lemnos Island (MIA MG-065, WLOTA LH-1740),
Agios Efstratios Island (MIA MG-002), Sergitsi Island (MIA MG-106,
uninhabitable) and Kompi Rockisland. Activity will be on 80-2 meters,
mainly SSB. SV8CRL is a local operator on Lemnos Island and SV8BUZ is a
local operator on Agios Efstratios Island. QSL via SV2AYT, direct (QRZ.com)
or via the bureau. Further information can be found at:
http://www.sx8ayt.com/
Or with mobile phone on WAP (via GPRS) setup at: http://wappy.to/sx8ayt/

J3, GRENADA (Ops Needed!). Harry, AC8G, informs that five team members
are confirmed for a visit to Grenada between October 25th and November
2nd. Besides being an entry in the CQ WW SSB Contest, there will be activity
before and after the contest using various bands and modes. Openings exist
for several more operators. If interested please contact AC8G using the
following E-mail address and giving a phone number for contact and good
times to call at: hflasher@dayton.net
Harry states, "American Airlines has a promotion for a short time with
fares the best I have seen in many years."

KH8SI NOW QRT. The KH8SI operation went QRT around 1900z, August 2nd.
Some interesting details about the operation should be forthcoming.
According to KH8SI pilot station JA2JSF: QSL via JA1BK: Kan Mizoguchi,
5-3 Sakuragaoka 4 Chome, Tama City, Tokyo 206-0013, JAPAN. Please send
all QSL data (multi QSOs) on one QSL. There has not been an announcement
about online logs. LAST MINUTE UPDATE. Visit Kan's, JA1BK, Web page
to see some of pictures of the KH8SI operation and information about
how hard it was to get transportation to Swains Island. His Web page
is at: http://www.iijnet.or.jp/JA1BK/

LIGHTHOUSE/LIGHTSHIP ACTIVITIES.....
The Nieuwpoort Lighthouse (BEL-004) will be activated during the coming

International Lighthouse and Lightship (ILLW) weekend (August 19-20th) by members of the UBA sections DST, KSD and RCO. Activity will be on all bands (80-2 meters) mainly on SSB, CW and PSK31. At regular intervals the operators may be seen on ATV as well (live via the ON0OS ATV output on 1255 MHz or screen captures on http://www.on4aim.com). QSL via ON5RKN, either direct or through the UBA bureau. There will be a special multi-color QSL card. All direct requests for QSLs will be mailed from Nieuwpoort and will bear the special "Nieuwpoort Lighthouse" postmark which can be considered a real collector's item.

Don, VP8ON, along with several other operators, will activate the Cape Pembroke Lighthouse (ARLHS FAL-009, WW Loc. GD18DH), located in the Falkland Islands (SA-002), for the International Lighthouse-Lightship Weekend (ILLW), August 19-20th. QSL via VP8ON (QRZ.com).

Hector/CE3FZL and Ricardo/CE3HDI will be active as CE2P (SSB) and CE2F (CW), respectively, from Punta Panul Lighthouuse (ARLHS-073), in San Antonio Port in CHILE, during the ILLW. Activity will be on all bands. QSL CE2P via EA5KB and CE2F via CE3HDI. Addresses can be obtained on QRZ.com.

Members of the Bahia Blanca DX Group will transmit for the first time from 5 different lighthouses at the same time during the International Lighthouse/Lightship Weekend (ILLW) which will be held on the third weekend of August. Look for the following lighthouses:
Rincon Lighthouse (ARG-036) -- Special Prefix/Callsign LR3DX will be used. Located in Verde Peninsula in Villarino County.
Lat. 39° 23' S Long. 62° 01' W / Grid Locator = FF80xo

Recalada Lighthouse (ARG-009) -- Each operator will use their own callsign plus /D because they are located in the Province of Buenos Aires, located in Monte Hermoso, the tallest LH in South America and the sixth in the world. It was 100 years old last January. Lat. 39° 00° S Long. 61° 16° W / Grid Locator = FF91ia

Baliza Chica Lighthouse (ARG-083) -- Each operator will use their own callsign plus /D because they are located in the Province of Buenos Aires. Lat. 38° 53° S Long. 61° 58° W / Grid Locator = FF91ac

Punta Tejada Lighthouse (Ref. to confirm) -- FIRST TIME ACTIVITY. No callsign provided. Lat. 38° 59 S Long. 61° 49' W /
Grid Locator = FF91ca

Hipasam Lighthouse (ARG-040) -- FIRST TIME ACTIVITY. Each operator will use their own callsign plus /V because they are located in the Province of Rio Negro. Located in Punta Colorada, 20 Km. east from Sierra Grande, Rio Negro Province. Lat. 41° 43' S Long. 65° 02' W /
Grid Locator = FE78lg

Look for activity from the above LH on all bands and modes, including digimodes (RTTY, PSK, SSTV). Contacts with Recalada, Baliza Chica, Punta Tejada and Rincon Lighthouses will be valid for the "PROVINCE OF BUENOS AIRES LIGHTHOUSES Award" organized by Bahia Blanca DX Group. All QSLs are via the bureau or direct via LU7DSY: Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Buenos Aires, Argentina. If you want send only one envelope with all cards, it's "OK": Up to 2 QSL = 1 IRC --- More than 2 Cards = 2 IRCs. Bahia Blanca DX Group Web site: http://www.grupodxbb.com.ar

The Panama Canal Amateur Radio Association will activate Panama Canal Miraflores Lighthouse (PAN-030) on August 19-20th as HO1L. Activity will be on all bands and modes including some PSK31. QSL via HP1IBF.

MICROLITE BALTIC TOUR 2006. Vincenzo, IZ0FKE, informs OPDX that he will be active from the Baltic area. His schedule is as follows:
August 9-11th - He will team up Markus/OH1MN and be a guest member of OH1AA on Parainen (EU-096) - Turku Group (one of the most wanted EU IOTAs). QSL via Andrea, IZ0EHO.

August 12-23rd - Vincenzo will be active as OH0/IZ0FKE from Odkarby (EU-002) - Aland Main Island. He states that activity will be on the WARC bands and PSK31. QSL via Alberto, IZ0FMA. He will also be with Peter/OH0JFB in the SSB QSO party on 20m from the famous Scandinavian Club Stations OH0Z/OH0AZ.

All the OH/IZ0FKE contacts will be registered with ARRL "Log of the World" (LoTW) as a valid and quick DXCC credit for Aland Islands and Finland. Vincenzo will try to give some media coverage by uploading frames to a MMS gallery at: http://www.iz0fke.com

OH0, ALAND ISLAND. Four Finnish operators will be active from here during the CQWW DX RTTY Contest (September 23-24th). Look for Raimo, OH3BHL, to be active as OH0Z as a Single-Op/Single-Band (80m) entry. QSL via W0MM. Look for Juhani, OH8JT, to be active as OH0I as a Single-Op/Single-Band (40m) entry. QSL via OH3BHL. Look for Juha, OH9MM, to be active as OH0M as a Single-Op/Single-Band (20m) entry. QSL via OH1MM. Look for Kimmo, OH9MDV, to be active as OH0KAG as a Single-Op/Single-Band (15m) entry. QSL via OH1KAG.

QRP MOUNTAIN DXPEDITION. Operators Michele/F5MKX (YL), Alain/F6ENO and Jean-Jacques/F5NKX will be active as F8UFT/p from the French Alps as follows:
Weather permitting, the team will be active on August 17th starting at the end of their afternoon (around 1600z) and night from the Adele Planchard hut (3200m ASL).

On August 18th, morning, some activity by F5NKX, before climbing to the Grande Ruine hut (3765m ASL).
Their equipment is a battery powered 3w transceiver and dipole (7 MHz), only on CW. QSL via F6ICG. PLEASE NOTE: This expedition is a non SOTA one, for there's no French SOTA committee yet. ADDITIONAL NOTE: The callsign

F8UFT is the official callsign of the Union Francaise des Telegraphistes (UFT), the French CW Society. This callsign has been activate in the past from: FS, TI, FO0, TK, FK8, J2, LA, OZ, ON, SM, and also from the Mont Blanc summit (4807m ASL).

QSL INFO AND NEWS.....
Phil, G3SWH, has recently acquired the paper logs for G3XAQ/6Y5 and a small number of cards for Alan's operations from NA-097 in December 1992, November/December 1995, December 1996 and November/December 1999. As the logs are on paper; they will *NOT* be uploaded to LoTW. As always, Phil's QSL policy is: direct preferred, bureau is OK or E-mail for a bureau card. Please include adequate postage and a C6 sized SAE for the return of any direct QSLs. U.S. dollars are *MUCH* preferred to IRCs, but please remember that 1 USD is *NOT* sufficient postage for an airmail reply outside Europe. Mint stamps (except those supplied loose) and other currencies are *NOT* welcome.

EG7CC QSL STATUS. John, EA7EUF, Secretary of the URE Huelva, informs OPDX that anyone who made a contact with the special callsign EG7CC over the weekend of May 20-21st, the QSL cards have been sent to URE HQ in Madrid for forwarding via the bureau.

NO BUREAU QSLS! Len, VK8DK, from the VK8 Bureau, informs that "whoever works Alan, VK8AV, please note that he does NOT accept QSL cards via the Bureau. He has a manager, Andy, UA9XC, who will accept all cards, provided it contain an SASE and 2 IRCs. The VK8 Bureau is 'drowning' in QSL cards for VK8AV. Please pass on this message."

SPECIAL EVENT. Members of the Strange Radio Team (SRT) will be celebrating their 3rd anniversary (birthday/founding) between August 2-10th, using the following special callsigns:
ED8SRT QSL via IZ8EDJ IO7SRT QSL via IZ7FLT
EF8SRT QSL via IZ8EDJ IO8SRT QSL via IK8WEJ
IO0SRT QSL via IZ0BTV IR3SRT QSL via IN3JJI
IO1SRT QSL via IZ1GJK IR0SRT QSL via IS0LFZ (Sardinia Island)
IO2SRT QSL via I2JJR IU8SRT QSL via IZ8GGF
IO3SRT QSL via IV3ZXQ L30BST QSL via IZ8EDJ
IO5SRT QSL via IZ5BTC V55SRT QSL via IZ8EDJ
IO6SRT QSL via IZ6FZS YI0SRT QSL via IZ8EDJ
For this event, they will be printing a special QSL card. For more info, visit the following Web Page at: http://www.strangeradioteam.com

SPECIAL EVENTS (Japan). Look for the following JA operations to take place during the month of August:
8J1A - Activity will take place between August 1-20th to celebrate the 2006 Amateur Radio Festival. Look for activity on all HF bands and modes. QSL via the JARL Bureau.

8J120JAS - Activity will take place between August 1-31st to celebrate the 20th anniversary of the Fuji amateur radio satellite. Look for activity on all HF bands and modes. QSL via the JARL Bureau.

8J620JAS - Activity will take place between August 1-31st to celebrate the 20th anniversary of the Fuji amateur radio satellite - Tanegashima. Look for activity on all HF bands and modes. QSL via the JARL Bureau.

8J2ARDF - Activity will take place between August 6th to October 15th, to celebrate the All Japan ARDF Athetic Meeting. Operations will be on all bands and modes. QSL via the JARL Bureau.

8J7JAZZ - Activity will take place between August 10th to September 10th to celebrate the 16th Johzenji Streetjazz Festival in Sendai. Operations will be on all HF bands and modes. QSL via the JARL Bureau.

TK, CORSICA. Laurent, F1JKJ, will be active as TK1KJ during the CQWW DX SSB Contest (October 28-29th) as Single-Op/Low-Power entry. QSL via F1JKJ.

TX6, MAYOTTE (AF-027). Sam, F6AML, a member of F6KOP Team, will be active as TX8A from October 5-17th. Activity will be on CW and SSB on the following suggested frequencies:
CW - 3514, 7014, 10115, 14014, 18071, 21014, 24892 and 28014 kHz
SSB - 3785, 7057, 14266, 18140, 21266, 24966 and 28444 kHz
He will pay special attention for North America and Japan stations. QSL is "OK" via the bureau. For direct QSL, please send 1 IRC, or 1 USD for Europe or 2 USDs for the rests of the world.

USI NEWS.....
MI-NEW. Look for special event callsign K8G to be active from Granite Island (ARLHS USA-333) during the ILLW, August 19-20th. Activity will be on most HF bands, SSB, CW, and PSK31. QSL via K8PT, w/SASE, SAE and IRC or GS, or by the bureau. Operations will start at 0001z Saturday and end 2359z Sunday.

TN-NEW. Jeff, WB5WAJ, plans to activate Hole in the Wall Island, Tennessee, August 18-19th. Look for activity around the usual IOTA frequencies (14260 kHz main). QSL via his home callsign, direct or by the bureau.

TX-001S. John, KL7JR, is active most weekends from Galveston Island (NA-143).

ADDED NOTE: Remember the U.S. Island W/VE QSO Party is October 21-22nd from 1600z Saturday to 2359z Sunday.

VP9, BERMUDA. Paul, K1XM, will be here between October 25-30th and active as VP9/K1XM (outside the contest). His activity will include the CQWW DX SSB Contest (October 28-29th) as VP9I and as a Single-Op/All-Band entry. Look for activity outside of the contest mainly on CW, on 160-10 meters including the WARC bands.

VQ9, CHAGOS ISLANDS. Jim, ND9M (VQ9JC and KG4JC), will be returning to Diego Garcia (AF-006) this week for another four month tour. He is a Radio Officer on the M/V Sgt. William R Button for the Military Sealift Command (MSC). He informs OPDX that his previous tour over last winter

produced nearly 15,000 QSOs (84% CW, 11% SSB, 5% digital) despite lousy band conditions, and he is hoping for another productive time on the island. QSL either direct or via the bureau by his home callsign, ND9M. (He also handles QSLs for his other alter-ego, KG4JC.) PLEASE NOTE that direct requests will be forwarded to him by his XYL only on a 2 or 3 week basis, and it takes about two weeks for first-class mail to reach him on the ship. Jim will answer QSL requests ASAP, but IRC users should be very careful as any requests received after the IRCs have expired at the end of this year will be answered via the bureau.

VU13, INDIA (Special Event). Look for special event station VU13IARU to be active until August 11th. Activity is in connection with the 13th IARU R3 Conference in Bangalore. This station will be operating on HF and VHF. The station will be operational from the Hotel Hari International in Bangalore. The person in charge of the station is Mr. A.R. Prathap Kumar, VU2POP.

WRTC2006 NEWS. Oms, PY5EG, informs that the WRTC2006 is pleased to announce the prize winners for the "Worked - WRTC 2006". They kindly invite you to take a look at their PRESS RELEASE 064/06 on the following Web page at:
http://www.wrtc2006.com/release64.html
Please contact Thomas, SM0CXU, to inform him of your address to so they can send the prizes at: thomascarl@gmail.com
All the prizes are going to be sent to your address with no charges or costs.

XX9, MACAO (Update). Look for Hide, JM1LJS, to be here between August 10-15th. He is trying to renew his XX9TJS license. He states that his activity will start around 1000z on August 11th. Activity will be on 30/17/12/6/2 meters SSB, CW and FM (No Digital modes.) He knows there is a high demand for 30 meters, so look for him there. Satellite operations will be 2m uplink / 430 MHz downlink only (No 430 MHz uplink). He will have two sets of FT-100D (HF/6m: 100W, 2m: 50W) plus AT-130 (Antenna tuner). Antennas will be fullsize dioples for 30/17/12 meters. For the 6m band, he will use a 2 element V beam type HB9CV. For the 2m band, a 430 MHz 3 element / 6 element cross yagi for the satellites. QSL XX9TJS via JM1LJS.

YC0, INDONESIA. Hotang (Hot), YC0IEM, will be active as YC0IEM/7 from Borneo Island (OC-088), August 7-24th. His bands/modes of activity were not provided. QSL via IZ8CCW, by the bureau or direct.

YI, IRAQ. Richard, SP8HKT, will once again be in Iraq as YI9KT. He will be in Diwaniyah from now until January 2007. He is going to use an IC-735 w/100 watts into a 7 band vertical antenna (GP-7, 40-10m) and a Delta Loop at 85m for 80m. Richard will be active during his free time: 0800-1000z, 1300-1430z, 1700-2000z, sometimes on low band only with North America between 0200-0330z and 0500-0630 local time. His activity on 160 and 80 meters depends on the possibility of assembling his antenna. QSL via SP8HKT, only direct.

A cheap tracking device can be purchased through one of the following pages.
http://tech-software.net/index.php?module=pagemaster&PAGE_user_op=view_page&PAGE_id=5&MMN_position=7:7
http://www.silcom.com/~pelican2/PicoDopp/PICODOPP.htm
I really don't think tracking devices have to be expensive but if you don't like paying for a good one, then I can provide a very simple 555ic timer circuit you can use that will cost about $10 to make.
Here is the circuit of a very simple but workable tracking device that I once used to track a signal to tandy's store in the toowong towers in Brisbane. Once you learn how to use it, you can track to a square metre. A hand held radio is the best choice of radio to use with the tracker. This shop blocked ch 7 for 3 days until I had some free time to go and see where it was coming from. The same shop did it again some time later and the culprit lost his job at that location thanks to a night time worker that was on the ball. The signal was a radio on the shelf connected to power with a small antenna and a clip lead over the mic insert to hold it on tx.

Isn't that illegal flushing trash down the sewer? The EPA would have a

I hope the rest of you will consider doing the same.

Let's stop teasing Mark, and help me with the five steps below.
Thanks. 73.

SC

Step 1: No more automatic renewals. Individuals must retest and
pass all elements required for their license class.

Step 2: The passing score for written exams needs to be raised to 85%.

Step 3: Code elements should be 13 wpm for General, and 20 wpm for Extra.

Step 4: Make the no-code license one year non-renewable.

Step 5: Cancel your league membership until they decide to work
to improve things.

It is funny, but sad too. Radio ops where Mark lives like to tease him. I'm begining to feel sorry for him and I'm not going to pick on him anymore. I think he actually does try. Mark is like the little kid that follows everyone around and gets teased all the time.

It's possible but not very likely Mark could make an EME contact with the station he uses. The stations on the other end of the qso would need to have very good setups to compensate for what Mark's station lacks.

no I don't buy that either

while I do not propose to end written testing I do wonder if the ARS
might not be better off with a license that (like GRMS) that one BOUGHT
from the FCC with the money rasied thereby used solely to conduct
enforement action on the ARS bands

and Indeed an almost no test novice liiting the licensee to unmodfied
Hts and a staion set up by a full status with no or a very minimal test
might well be a good way to go

preveldges close to the old novice (but with 2m instead or adtional to
222Mhz)
and a test for full preveldegs afer that

exactly although several station on the web have set ups able to do so
I have posted links

I can not make a EME QSO with a station(both stations being) like my
own

I have now what I belive to real contact and sked with a station who's
published on the web log includes station of my gain and power. after
hopefully completing that Sked and seeing the log updates (they tend to
do once a month normaly but they had something burnout and were out
most of July so Grw impatiant to try out my gear)

the concept of Big station "lending" gain to smaller stations in comon

I'm not a no code fan either but....

In case you havent listened to the bands and noticed most hams are now missing....Ham radio is already dying without handing out free tickets.

The number of people becoming new hams is dropping monthly!

Soon the amount of hams dying will be greater than new tickets. Code or not....Its days are numbered.

And that would prove what?

Slow, you should be old enough to know that this is NOT a perfect world
and that the ARRL is not a perfect organization.

However, it IS the -only- game in town. If your "boycott" works, people
quit and the ARRL loses revenue, then they will be able to accomplish
even less than you think they are accomplishing now.

Sorry, but your plan seems a little half-baked. Come back when you get
over being slow.

2540. NO9GL howels at Mars & makes first eMe contact

Only the eleet amateur can bounce signals off Mars and make contact with DX and I have done it. No easy moon bounce stuff for us eleet radio ops because we are not like Morg Markan and need to steal gain from bigger stations. An even bigger deal is that it was done by Omega One Radio at 13.556.00 MHz using the new hyper modulation invented by AB8MQ last year (patent pending). Don't know about hyper modulation? Omega One Film Productions is producing a documentary about it to be released in October. Watch for it at a selected theater near you or else buy the DVD when it is released.

Next is Venus. After that we will attempt a distance record by bouncing a hyper modurated signal off Youranus.

Of course not. And the wolf can't see what's wrong with his guarding
the hen house.

>while I do not propose to end written testing

Sure you do - unless it's a test you can pass if you have to.

> I do wonder if the ARS

It wouldn't. Is GMRS "better off"? What would the difference be? The
frequency? Is CB "better off"?

There are various types of radio usage - CB for communications - which
soon stopped working. GMRS for communications. Ham radio for
hobbyists. We don't need to turn ham frequencies into a preserve used
for communications - we have 2 perfectly useful - and *totally*
test-free - bands for that now.

>preveldges close to the old novice (but with 2m instead or adtional to

The old novice HAD 2 meters. Just no VFO (and, IIRC, only CW and AM).

Dear Mr. Robeson,

Thank-you for your e-mail of 01 August 2006

In reference to your inquiry, no such unit "HMC 47 CSB
(PROVISIONAL)" has ever been located at Ft Sill. Furthermore I find no

reference to any "214 FA BRIGADE" at Ft Sill or any other US Army
facility.

I hope this answers your questions.

WILLIAM C ANDERS JR

_____
the above is quote from steve recent post

he said he was going to write and try to comfrim my service in HMC 47th
CSB (provisional) then part of 214th FA 3 copr art Ft Sill ok

I knew he would not confrim the current location of the 47 csb at sill
indeed the unit I believe has been reorgaized out of existance although
the paerent unit of the formation the 47 th Feild Hospital likely
remerges from this I have heard they may be a irag but I frankly don't
know or realy much care

I did not expect steve to dare say the 214th does not exist (it does
http://sill-www.army.mil/3ca/214web/214th.htm)

but I welcome it as it serves as proof that Robeson has lied us and
therfore the claims I and other have made about his veracity (or
rather the lack there of)

inthat post the Major Of Cap has choosen to fake a comincation from the
US Army it itself. inded after this how can anything he has claimed
about any DoD matter be trusted

It would seem that Robeson admits defeat for the monet by quiting the
feild here in USENET but he will most like be back after he thinks his
misdeeds are forgotten

2571. Markie backpedals now that his Army service lie is exposed like his EME "contacts"

Mark, this alleged "response" to an e-mail inquiry is undoubtedly
BOGUS. Let's review the verity of Major Dud's posting:

1. There is NO verification available that such an exchange
ever existed through any referencable third-party source,
nor any other proof that Major Dud ever made such an
inquiry.

2. The respondent ("William C Anders Jr") is not identified
by position or rank and it is NOT written all-capitals
in any signature. Note: Even civilian employees of the

United States military have a position title which is used
for all correspondence.

3. If a military unit is mentioned, it is protocol (format)
for a unit to be spelled out for the first mention, then
abbreviated. This is for clarity in responding to non-
military correspondents (identifiable by headers in e-mail
when correspondence does not come over the military's
network).

4. It is extremely easy to forge a third-party "message,"
then include it as part of a message in here. That is
NOT "proof" of anything.

5. Contrary to Major Dud's claims, United States Army units
do NOT always keep careful records of their history. The
entire United States military undergoes periodic changes
in structure and new units may be created out of old ones
while older units may be dissolved. Any "history" of a
unit depends on the commanding officers' assignment of
historian duties within that unit, NOT considered an
important/prime task in that unit's mission. Neither are
unit historians typically "in contact" with other units'
historians.

6. Probably the best place for old unit information of the
United States Army is the Army Center for Military History.
They have a website with some limitation on available
information for non-military/non-government research. They
have permanent quarters with considerably detailed written
and photographic records for research by authorized
historians. The United States Navy has a similar
organization, also with a website. A careful web-search
will turn up their URLs.

>but I welcome it as it serves as proof that Robeson has lied us and
>therfore the claims I and other have made about his veracity (or
>rather the lack there of)

Major Dud BLUFFS his way through his claims on here. He makes
claims of his own and tries to pass off those claims as "truth"
(perhaps because he WANTS his imaginings to be true). Witness:

1. Years of claiming to be an active-duty USMC member yet NO
evidence presented in ANY FORM of claimed 18 years service.
Not one single digitized copy of any official papers, not
one photograph of himself or anything else taken while in
that 18-year service.

2. He has repeatedly challenged "call the VA" to "verify" his
service. However, the Veteran's Administration is NOT the
place to verify that nor will they give out full information
on a past or current service member to just anyone making

an inquiry. The archives of all service members are kept in the St. Louis National Archives Center and do send out copies of individuals' records but ONLY to IDENTIFIED individuals (or their identifiable kin). Copies require a small fee.

3. His claims of anything on QRZ.COM and his AOL home page are made only by him and are NOT "checked" or "investigated (for truth)" by either QRZ or AOL. Note that his biography now has him as "CHOP" (presumably an abbreviation for Chief Operator) of a second MARS station, whereas he had claimed earlier on the newsgroup as being "Assistant Chief Operator" on only one MARS station.

4. We have NO way of verifying that Major Dud is actually a "Major" in the Tennessee Civilian Air Patrol. He has a photograph of himself in a (somewhat used) flight suit with embroidered rank identification (of Captain) on it. He has not posted any CAP URL that has personnel listings on it nor has he presented any digitized copy of any CAP official records concerning him.

5. He once had a photograph of himself as a "First Lieutenant" in the Tennessee STATE National Guard (not affiliated with the federal national guard organization) as "communications officer" of one "brigade" (less than battalion in size according to the Tennessee State Guard's own website information. That "career" was short-lived and there are no records available of either his joining or his leaving.

6. His AOL home page has a link to a National Hang-Gliding Association and he once claimed to do that. However, he has never mentioned his glider, its make and model, nor where he glides, nor anyone he claims to know. We get a lot of INFERENCE but never any direct reference nor evidence. I am acquainted with a few hang-gliding enthusiasts here and they fly at only one location, have lots of pictures of themselves and others gliding.

>inthat post the Major Of Cap has choosen to fake a comincation from the
>US Army it itself. inded after this how can anything he has claimed
>about any DoD matter be trusted

Mark, we can't trust Major Dud in much of anything on news-groups. If you recall, Brian Burke and myself took him to task on the Department of Defense DIRECTIVE on the mission and organization of the Military Affiliate Radio System. Major Dud was unaware of that directive, refused to acknowledge it (yet was downloadable from the DoD by anyone), and kept claiming for the longest time that "amateurs directed MARS." They don't. DoD directs MARS. Always has.

After YEARS of claims of active-duty USMC service in here we haven't been presented with one shred of evidence from either official or unoffical sources that he ever did what he said was nor held the rank he claimed.

>It would seem that Robeson admits defeat for the monet by quiting the >feild here in USENET but he will most like be back after he thinks his >misdeeds are forgotten

"Nevah hoppen, GI." :-) [old Japlish exclamation of the 50s]

Major Dud will NEVER admit defeat nor will he EVER acknowledge a correction other than a typographical error. He is a BLUFFER and bluffers will simply try to misdirect any callings-out on errors or mistakes...or he will go into an emotional tirade of personal insults directed at his accusers. If that doesn't work, he MANUFACTURES "reasons" why his accusers do what they do (or don't do). False "reasons" supported only by his imagination.

Major Dud lives in a world where IMAGE IS EVERYTHING...rank, position, "official accreditation," activities of a macho nature, but, especially, his wishful thinking. He is King in that world and no one DARE dethrone him!

Major Dud WANTS ATTENTION. So much of the message content in here involves him and his disputes with others that, before the onslaught of the middle-school-mind filth-sayers, this news-group was rife with it. Hardly anything about amateur radio policy, just Major Dud and his "enemies" endlessly sparring, egged-on (also endlessly) by Major Dud hisself.

Yes, it would be good if he simply went away. He won't in my estimation. The Internet and Newsgroups are an excellent vehicle for his bluffing, inferences of "greatness", etc. He is SAFE there, isolated by time and distance, and thinks he can maneuver perceptions of himself by others by his claims and inferences. Unfortunately, he gets very upset emotionally by challenges and corrections and erupts in vitriolic behavior when confronted. Politeness disappears and he becomes abusive. [he accepts that for, after all, "kings" are allowed to act that way in his world]

Mark, watch for the responses from the Mighty Major on this post. :-) His actions will be as I've described. :-)

Will you take My word for it? Steven J Robeson was at least a major in
CAP on or about 13 jan 2006 I base this on My own conversation with the
Office of CAP Military Liason
Dudly has complained loudly to this forum about my effort to seek
jusitce though channels

Dear Mr. Robeson,

Thank-you for your e-mail of 01 August 2006

In reference to your inquiry, no such unit "HMC 47 CSB
(PROVISIONAL)" has ever been located at Ft Sill. Furthermore I find no

reference to any "214 FA BRIGADE" at Ft Sill or any other US Army
facility.

I hope this answers your questions.

he said he was going to write and try to comfrim my service in HMC 47th

CSB (provisional) then part of 214th FA 3 copr art Ft Sill ok

I knew he would not confrim the current location of the 47 csb at sill
indeed the unit I believe has been reorgaized out of existance although

the paerent unit of the formation the 47 th Feild Hospital likely
remerges from this I have heard they may be a irag but I frankly don't

And as has already been pointed out, there would be a unit history
in archives somewhere.

There's no archive on the "HMC 47th".

It never existed.

Of course you don't "care"...

Because with each day that you persist in insisting that you were
a member of the US Army attached to a unit that never existed, you look
all the more idiotic.

Lick what wounds, Morkie?

Reminding me that you claimed to have been atttached to a
non-existant (as in NEVER existed) Army Unit?

You're already a confrimed liar about your "Army Chemical Corps"
duty, Mork, now you claim to have been attached to a unit that NEVER
existed.

Hi,

I'm going to St Johns this Sunday, and I've been trying to find someone to contact in order to get permission to operate the Signal Hill station on either Sunday, Monday or Tuesday evenings, but so far I've not been very successful.

Does anyone on here know anyone in New Foundland, ideally St Johns, who might be able to point me in the right direction?

Thanks!

Paul, G7KES.

Depending on the definition of "required", he may have - that's the
point. Knowledge is no longer "required", it seems to be optional.
The other option is memorizing the answers.

sure I can
at at least i assume the colpitts is no more complex than most of the
others

no understanding of the curcut is required to render a picture from
memory
indeed the only I or anyone else is going to know that ciruct x is a
colpitts rather than Holtzman or a Fu Manch is by memory

Hello Brian...long time no write... :-)

We've all seen the usual bluffing, lying, etc., by Major Dud, this
time on a slightly different subject. He expects us all to "take
his word on it (that it is true).

BWAAAAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHA!!!!!!!!!!!!

Poor "Major" Dud may have once seen an ancient mineographed
order-of-the-day or perhaps has a yellowing 5-bit-code TTY
message where everything is in caps. He may think that is
still in use, poor guy.

Poor feller Dud just doesn't understand, perhaps no know about,
the DSN and its header information, terminal software able to
identify civilians from military personnel on Internet tie-ins.

Heh heh heh.

MARS functions in existing units is still largely concerned with
morale services for unit personnel. It is hardly there to "back
up" any regular unit communications, much less be some key
ingredient in some pipe-dream "Homeland Defense Against Terrorists"
or other wild imaginings.

On putting together a photo essay of my own service days at a major
Army communications station

http://sujan.hallikainen.org/BroadcastHistory/uploads/My3Years.pdf
and /AlphabetSoup.pdf

I ran into the usual shoulder-shrugging "don't know" from a number
of official agencies at first, everyone from the Army's Center for
Military History to Fort Gordon's Signal Museum Historian's Office.

It took a LOT more digging and communicating with other agencies and units to get the final evolutionary path (including the USAF, I might add) of the 71st Signal Service Battalion of 1945 to the 78th Signal Battalion of today (based at Camp Zama, Japan, near Yokohama). It helped to have acquired a paper copy of my old battalion's own printing in 1962 describing the (then) updated station ADA and its mission, equipment, and history (to that date).

Even the Pacific Stars and Stripes military newspaper (HQ in Tokyo) helped with data. Ask nicely and it is surprising how helpful some can be. A not-quite-related sorce of information on Army communications turned up the fact that the old callsign "ADA" of Tokyo times in the '50s still exists and is now the HQ callsign of USARPAC, the United States Army, Pacific.

An even more detailed and comprehensive history of Army history (on Signal units) in Europe since 1945 ("USAREUR") is on-line at:

http://usarmygermany.com/Units/Signal/USAREUR_SignalCorps.htm

Heh heh, no. Neither historical agency has lists of fakers.

The only place where Robeson's "military career" could be verified or shown non-existant is NARA, the National Archives and Records Administration, and their massive military records archive in St. Louis. Getting such data requires a minimum knowledge of Robeson's social security number and proof of being a member of his family. NARA gives definitions of that and other necessary information to obtain individuals' records.

Since Robeson has refused to display even one item of official information, personal photograph while in-service, all on a claimed "18 year active duty" with the USMC, we have to conclude he NEVER HAD ANY SUCH ACTIVE DUTY TIME. The only photos he has had for claims of anything have been as a TN STATE Guard "1st Lieutenant" (scowling pose in cammies) or the infamous snot-on-moustache pose in a (used) flight suit with embroidered Captain's bars on the shoulders, as a member of the CAP. Not ONE single bit of information from EIGHTEEN YEARS claimed on active duty in the USMC.

The only conclusion possible is that Robeson is a fraud, an imposter, a wanna-be who never-was.

If Robeson makes fraudulent claims about 18 years of his life, what ELSE is he claiming fraudulently?

>> 3. His claims of anything on QRZ.COM and his AOL home page

>A NCOIC MARS?

You betcha. Go to the K4YZ "detailed info" link and use the link at the end to access his home page. In that he claims a SECOND MARS station service, this time as THE NCOIC. Just more embellishment by the imposter.

Robeson needs IMAGE of his mighty and heroic accomplishments. Slathering on more embellishments (never before mentioned) seem to be a part of that.

>> Mark, watch for the responses from the Mighty Major on this
>> post. :-) His actions will be as I've described.

Tsk, tsk on me...I forgot to include Robeson's usual response and answer to things he can't prove as being "LIES" by the challenger. :-)

To him, it IS a "LIE." His fantasy world is made up differently than the reality we are all accustomed to...any departure from that fantasyland will SEEM like a "LIE" to him. Naturally he is disturbed about his fantasyworld being torn asunder.

We can all concentrate on the personal squabbles of a few, the anonymous middle-school-mentality-macho-wanna-bes happily talking dirty...OR...consider the FCC document release of 7 August 2006 on Access BPL. That's available at www.fcc.gov as FCC-06-113A1 in PDF or MS Word format.

That's a REAL Policy matter. But it's too difficult for those anonymous middle-school-mentality-macho-wanna-bes who would rather throw trash and dirty words on others.

Sierra Charlie, an informative reply is not the same as a flame
response.

A tape recorder is part of my shack. By the way, there's no exam on
how to use a tape recorder. Learned it all by myself. I use it to
record Old Timers acting foolish on HF.

But drawing it correctly, including parts values, requires

HAMS ACCUSE OMEGA ONE OF PIRACY!

One the USENETS (newsgroups) Amateur Radio Operators are accuse Omega One Radio of Piracy and have even gone as far as get on N9OGL BLOG http://n9oglvoice.blogspot.com and claim they have notified Riley Hollingsworth of the FCC of his "alleged" pirate activities. The truth is Omega One Radio is Legal. The power output of Omega One is 10,000 uV/ meter @ 30 meters(47 CFR Part 15.225). What's even worse is that this Ham operators are accusing someone of an illegal activity without even reading the rules and regulations. When Todd N9OGL, posted the rules those amateur's claimed "Just another cut and paste by Todd". The truth is most amateur radio operators don't know the rules, sometimes even their own rules. They believe that ALL radio transmitters and operators must be licensed by the FCC.They also believe that If you need to know about a rule or regulation that you have to be a lawyer or ask a lawyer to understand what those rules mean. This in term show how bad amateurs really are, it shows that amateurs want to play radio cop and jump the gun without reading and doing research on the matter. The fact is Omega One radio with it Part 15 power output is legal just like Wi-fi, Baby monitors, Cordless Phones, remote control toys and walkie talkies are legal because they too are Part 15.

Bullshit, Markie. One can see with their own eyes how filthy and piled
up your yard is. When's the last time you raked the leaves out of your
yard? Why is there trash scattered all over the yard? God knows what
kind of a filthy and piled up condition your house is in inside.

Try it in English, fraud. You got caught lying about it. Like your
numerous EME contacts or anything else you've claimed.

No, it's clear that you faked your logbook with fake EME contacts that
you claimed to make and got caught in a lie. Then to compound that lie,
you claimed "bootleggers" made fake calls.

I guess you missed it...

Toiddie was "graduating" at the end of "that" semester when he
joined us here...That was about 18 months ago or more now...

But really, I bet the only thing he's ever "attended" at a college
was the men's room...You know...the guy who passes out toiletries and
fresh towels, and gives you a mint if you leave a tip...?!?!

I found the Url posted it in another thread along with the note from
that iit takes up 6 months to retrieve a units histroy for the ARMY so
steve has to have been lying in saying some could come up with in only
a few days

BTW the timelines also prove steve is lying when he claims you can
call the military and find proof of his service

well I suppose you can but you need to be on hold for about 6 m0onths

Since it can't, I don't. You can memorize enough that it mimics
understanding, but rote memorization isn't understanding.

I would tell you where to insert your request but I am feeling kind

but indeed to draw the schamtic you just called would require either
looking up what made it a Wien bridge or to have it memeorized nothing
about the the name of clasification of the occilator are derived from
first principles that being Maxells equations

you when asked with the cance to check your notes can not described
what YOU had to draw

I stated I could memorize a dozen or so schematics,(indeed that I can
memerize whole plays well enough to get paid for the skill should be

but your statement is an amdission to my point. I said meroization can replace understanding. you state it can minic it. I agree fully with that statement

therefore since memorization can minic undersatnding as long as one can memirze enough at a given period of time then this proves that Understanding was never required in the same period of testing.

Understanding is always a good thing if it happens, but short of a great deal of knowledge that is not reuired Memorizing the Caps in paralell add, while Indcutor and resister in paralel go though a more complex formula (that I am not sure how to accurately put in this text but ends up halfing if the value in paralele are the same) is fine and no harm is done by this

If you want to do a beacon, why not do one in a ham band somewhere? It would be much more valuable to the ham community than your goof-ball 13.556.

Just for fun, I did a four watt beacon on ten meters once back in the 80's. I let it run for two days, and got about six QSL card reception reports. LOL. None were DX though.

Mark, would you put these five steps on your web blog for me? Thanks. I also want to try to get the moon bouncers to help us out. I think by puting the five steps on your website, a lot more hams will see and agree the five steps are a good idea. TNX, 73

SC

Step 1: No more automatic renewals. Individuals must retest and pass all elements required for their license class.

Step 2: The passing score for written exams needs to be raised to 85%.

Step 3: Code elements should be 13 wpm for General, and 20 wpm for Extra.

Step 4: Make the no-code license one year non-renewable.

Step 5: Cancel your league membership until they decide to work to improve things.

It's not a beacon, we play music and information, it's a low power
shortwave broadcast
I am however looking to put a beacon up on ten meters.

understanding it, you can't.

no harm is done ever

IndeedI see NO reason why you ever need to have that particular piece
of knowledge at your fingertips

if you need (I guess to do a subtitution or work around a strange
resitance or cap or inductance but like another peice of knowledge on
the extra pool why would anyone need to know what frequence with a
signal was balck in FS ATV

there are porblems with the qustion pools mostly the out dated
knowledge that is still tested for

I am honest. I don't think CW has ANY value in todays world.

you are welcome to play with it but not to us it to restrict access to
some that is part of my birthright and yours

the Congress has no power to regulate Radio except from the ITU treaty

Interstate commerce. If you don't understand how that gives the
government the right to regulate radio, you don't understand enough
about the Constitution to discuss the subject.

comerence this IS AMATEUR RADIO you dolt
commerce is forbidden

how does Morse code relate to Comerce anyway?

Interstate commerce gives the Congress the right to require Morse Code
testing> Id love to TJ weigh in on that

of course in fact you are beyond any convincing you have decided that
Morse is somehow vital to Ham radio

forutnately my auduince is out there

a gruop you and your postion failed to conivnce the ARRL may be getting
the FCC to drag it feet awhile but do you realy think code testing will
last amore than a few years at the outside

Indeed in last round before 2000 I could not find one of the procoders
who would state he beleived that code testing was not doomed

You're not a real ham if you want the ARS to sound like CB.<<< It
already does around here mostly silent

do you realy distpute this title?

Always. But don't worry about it. The FCC never actually listens to

Reminds me of the Japanese WWII soldiers still being pulled out of the
bush in th ePI in the 1970's. Robescum is out of touch with
communications theory and practice.

Robescum requires his own "AIG" and comm center.

I'd be wrong if I said that everything that Robescum posts is
fraudulent. So I won't.

Let the reader beware that they need to inspect every Robescum posting
for fraud.

I think he just liked listening in on phone patches from real
servicemen to their wives. He probably got in a few minutes of
"comfort time " with the wives after the patch went "dead."

There is a group that goes after fakers. I think they're called
"Stolen Valor." They're probably aware of Robescum.

Hmmm? A 1LT with Captain's bars? Typical Robescum.

Wasn't he claiming to be enlisted in the USMC?

I'll bet he got a boner putting on that used flight suit. Oh, was that
his stomach sticking out?

By his absence, I thought that Robescum might have been incarcerated or doiing some heavy duty counseling.

Summer is about over. Been working too much.

I took the kids to the barber and to the movies - Ant Bully.

Need to do something fun before school starts so the kids remember that I'm still their dad.

Poor Morkie, he uses the word "commerce" three times in a row and only
spells it right once. So much for that "college education" you claim
you have.

Bullshit, Markie. One can see with their own eyes how filthy and piled
up your yard is. When's the last time you raked the leaves out of your
yard? Why is there trash scattered all over the yard? God knows what
kind of a filthy and piled up condition your house is in inside.

Fuck off, Markie, the picture clearly shows what kind of piled up yard
you have. Even the trash can is rotting away.

As I said, you don't understand the situation enough to discuss it.
Radio comes under interstate commerce laws. ALL radio does.
Broadcast, public service, CB and ham, among others.

>how does Morse code relate to Comerce anyway?

It relates to radio, which the government has the power to regulate
under its mandate to regulate interstate commerce.

>Interstate commerce gives the Congress the right to require Morse Code
>testing> Id love to TJ weigh in on that

It gives the government to require whatever doesn't violate the
Constitution. And there's nothing in the Constitution prohibiting
having to know code to get a ham license.

>of course in fact you are beyond any convincing you have decided that
>Morse is somehow vital to Ham radio

Nope - I never claimed that it's vital. I never even claimed it's
necessary. You just don't understand conversation.

My oh my !!!

The Lavendar Lads of RRAP and rec.radio.(fill in the blank here)
are all so upset and moaning like stuck pigs in a barnyard pen
because the TSA will no longer allow them to bring their giant-sized
tubes of K-Y Warming Gel onto the airplane. It seems that our
perverted ham radio 'butt-buddies' have been taping their air-pump
powered penis toys to their leg prior to a long airline flight and once
up in the air they were going into the restroom stall to "lube up"
before going back to their seat all happy with the squeeze-bulb
inside of their left pocket with the tray down to conceal their
perverted activities. No nore boys! One of our RRAP pervs was
at the airport yesterday and was crying the blues over having to
dump his K-Y into the trash bin under the watchfull eyes of Bubba
the 6'-2" big black TSA Officer. Bubba is no dummy either, he sent
our RRAP friend (who hails from the South) thru to the full-body
X-Ray machine and his penis-pump showed up on the scan.
Casting a shi+ eating grin he then told ----- to "GET THAT THING
OFF YOUR LEG DAMMIT! YOU AIN'T GONNA BOARD NO
PLANE WITH DAT *ISLAMIC SEX TOY* STRAPPED TO YO
LEG...!" Poor -----! He just tore up his tickets and turned around
and went home all mad and upset, when he turned the corner out
of sight, Bubba, Tyrone and Kayshee each had then a good laugh
session, slappin each other on the back and laughing to the point
of crying tears over how the Bro's of The TSA busted yet another
ham radio pervert trying to board an airline flight. Good job boys!

The End.

I don't care who it was derected at

Gay bashing is gaybashing in some places it itself is a criminal
offense

It never has a place in radio Newgroup

you can indeed type what you want, I certainly can't legaly stop you
OTOH so can I

I realy fail to understand why the bulk of posts even the bulk of posts
not directed at me are about sex rather than a radio in radio NG's

you are a clearly a poor ham as maeasured by the amateur code

you clealy have this notion that that rules have ever required thing
NOT in the rules

you are rude and abusive (and then to top that object to being treated
the same by others)

that you are rude enough to call a man you have never met useless as
ignored out of coutesy not missed

the fact is Ham radio sound very miuch like cb NOW on HF and VHF the
sound in many areas is all but silence

when have I ever threatened legal action that I have not delivered?
answer never

I have and contiue look for a way to move against Wismen and robeson
that work continues If/when it comes to something I will act till then
oviosuly nothing

Sure you will, BTW who authorized that callsign? because it is not in

tell them that your using a fake callsign and your pretending to be a

Indeed. Todd has stolen the name from Omega One, LLC, whose site can be
found at http://www.omegaone.com. I'm sure that they won't appreciate
Todd coming along and "appropriating" their registered trademark after
they have been in business as Omega One for nine years.

Maybe I'll drop them a line at info@omegaone.com and suggest that they
have their lawyers write a cease and desist letter to Todd.

That would probably make Todd soil his pants (again).

And you would go to such a measure to expose the likes of Todd? I mental
child? Why? What would it gain you?
You cannot give Todd cause to cease and desist much like you cannot give
Mork reason to cease and desist. Meld two mental incompetents into the same
folder and you get mental deficiencies times two.
Mork and Todd are but two peas in the same pod and no amount of cajoling
will ever cause either to learn the meaning of Common Sense.

Thank you for the info on Omega One. I will look into it, check the veracity
of your statement, and if necessary, file a complaint.
No matter how it works out, I will not waste any time trying to listen to
Todd's out-of-band transmissions. The guy is long renowned for being less

First off that person, NO9GL is not me and it is not even a vaild amateur radio callsign. Omega One, which your refering to is a PDA software maker. to be in violation of Copyright/tradmark violation I would have to be using the mark to confuse the customer. Omega One Radio is a Shortwave broadcast station, NOT a PDA software make, So there is No confusion of the two. Where did you study Copyright/Tradmark Law?? I would REALLY suggest you read copyright/trademark Law before you go around spouting your mouth. As for being less intelligent, the only one who less intelligent here is you and your lack of understanding of Law

Dear Mr. Robeson,

Thank-you for your e-mail of 01 August 2006

In reference to your inquiry, no such unit "HMC 47 CSB
(PROVISIONAL)" has ever been located at Ft Sill. Furthermore I find no

reference to any "214 FA BRIGADE" at Ft Sill or any other US Army
facility.

I hope this answers your questions.

WILLIAM C ANDERS JR

_____
the above is quote from steve recent post

he said he was going to write and try to comfrim my service in HMC 47th

CSB (provisional) then part of 214th FA 3 copr art Ft Sill ok

I knew he would not confrim the current location of the 47 csb at sill
indeed the unit I believe has been reorgaized out of existance although

the paerent unit of the formation the 47 th Feild Hospital likely
remerges from this I have heard they may be a irag but I frankly don't
know or realy much care

I did not expect steve to dare say the 214th does not exist (it does
http://sill-www.army.mil/3ca/214web/214th.htm)

but I welcome it as it serves as proof that Robeson has lied us and
therfore the claims I and other have made about his veracity (or
rather the lack there of)

inthat post the Major Of Cap has choosen to fake a comincation from the

US Army it itself. inded after this how can anything he has claimed
about any DoD matter be trusted
I had expected that Robeson would wander off for awhile like the coward

he is to lick his wounds but he clearly lack the good sense to do that

so as needed I will keep reminding him

You still don't understand the difference between memorizing facts and

at pesent their is no different when I learn the text of the right
answer to a given I leraned the answer to that question

there is no difference, none at all,

for some of the materail the only rational way of approuching it is
memorization, for other section you can learn some part of the
underlying theroy and use it but short of the Full course of Eltromatic
Theroy I hadin colledge you don't learn much

can you describe and USE Maxwell's equation? I can I found the
knowledge very helpfull on the rf safety question in the pools,
butstill useless without memorizing certain facts that have set as
arbitary level in the regs

the fact I need to an rf eval at at 51 watts on 2m is not something I
can know from guasses equation although guass' law allow me to easily

I have a question for " an old friend ".

I noticed that you have a difficult time with writing the English language, with regards to spelling and grammar, etc, but you do try to get the thought across. I have a dyslexic daughter with the same problem, and her teachers in grade school used to flunk her thinking she did not know answers to the test questions, when actually, she really did know and understand, but was afraid to write them out because of her dyslexia and the resultant laughter and snickering that followed. When we all caught on to this finally, we demanded that she be tested aurally, where she was asked the questions out loud, and responded verbally with the answers instead of writing things out. This made a hell of a difference in assessing her learning and understanding during her education in the early years. As her father, I was hard on her because of the frustration she caused us at first when we did not understand what was really happening, and I still feel guilty about it to this day.

Are you a native North American, or are you an immigrant? When you did your ham test, or any test, did the teachers/instructors make these allowances or alternate testing methods for you also? Were they easy on you, or did they show frustration? Did they understand where you were coming from? Did you have a pleasant attitude to deal with? I am not making fun of you. This is a serious question. Thanks,

Jack

We all know that most blacks are just one silly millimeter away from going postal, but lemme tell you, dat Cynthia McKinney sho nuff be crazy as hail.

You probably saw the news coverage of her being angry, and of her entourage roughing up cameramen and spewing obsceneties about "crakuhs" and jews. What really set her off was me making fun of her cornrows and big lips. I asked her if she used trained fleas with tiny little hoes and shovels to make cornrows in her hair. I also asked where the inflation nozzle on her lips was. Well, she was not amused. I mean, she started screaming worse than a 400-pound welfare sow finding an empty Cheetos shelf at the supermarket.

But not to worry, I placated her with a nice gift .... a 55 gallon drum of lipstick.

I was diagnosed as Duslexic and am at a better occasion verbaly of
course I decided that I would not allow the mocking of the close minded
to stop me expressing myself when I choose
>
> Are you a native North American, or are you an immigrant?
intteresting I am a native american citizen but was in fact born abaord
with my folks working in the srvice of Uncle Sam
>When you did
> your ham test, or any test, did the teachers/instructors make these
> allowances or alternate testing methods for you also?
nothing but given the nature of my knowledge I needed none for the
written testing but the VE system bascial refuses any real accomadation
in making an effort at code testing

in tests in Hs it got easier once my dyslexia was discovered amusingly
it result of the mangling I did in takeing code tests (one of the
tester was also a specail ed teacher and thought I might be dyslexic)

agian depends

pleasent to a point but frankly to survie and do I wanted I have a
SERIOUS pugnaous streak of course

the posters on here seem to work to bring that to the fore
> I am not making fun of
> you. This is a serious question. Thanks,
in the arguement here frank it shows just what memorization can do Like
Tom cruise I can memorize vasts amounts of data ((I do some
professional acting)

I agree with the Morse Code (or whatever exotic name it has evolved to in modern day) as still being useful. I think morse code is a lot of fun, and very much a part of the ham hobby's old-time, nostalgic glamour. I see no harm in making it part of a ham's testing and licensing requirement. I feel that it is definitely useful, and provides communicants with an international second language to deal with in emergencies.

I do not think the newer hams are idiots for wanting to do away with code, but I think they are missing out on a piece of irreplaceable history that is so easy to maintain and cherish forever.
Viva le ham.

if you want to stop you can anytime all you have to admitt you have
been lying we all know it by now with the fasico of you tring to claim
my unit does not exist amoug others simply issue a public retraction
and and try to post about radio and in time you might be accepted as a
human being again

Who the Hell do you think you are, Morgan? Nobody has to "admit" anything,
other than you are a boorish, blithering mental midget. And that ain't
"libbel", it is a fact.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4O3T, MONTENEGRO. The 4O3T DXpedition Montenegro was expected to come to an end on August 13th this past weekend. Martti, OH2BH, sent out a press release before the weekend on Thursday August 10th, called "4O3T APPROACHING THE LAST WEEKEND OF OPERATIONS". He mentions that the 4O3T team has made over 120,000 QSOs. OPDX InterNet Subscribers will receive the complete press release as an additional bulletin (minus the photos).

4O3/YU6, MONTENEGRO. Operators Toma/YU1AB, Emin/DK4ES and Branko/YZ1DZ will be back in Montenegro again August 15-22nd. They will have a new license and will operate as 4O3AB on CW/SSB/RTTY/PSK and 4O3ES on SSB only. They just recently received the licenses from the Montenegrian Agency for Telecomunications. QSL via QRZ.com.

6Y, JAMAICA. Operators Ken/K2KW, Tom/N6BT and possibly others will be active between November 19-27th. Activity will include the CQ WW CW Contest (November 25-26th) with entry class TBD. QSL via WA4WTG. Operations outside of the contest will focus on the low bands.

CT3, MEDEIRA. Operator Richard, PA0RRS, will be active as CT3/PA0RRS, August 17-31st. No bands/modes of activity were provided. QSL via his home callsign, direct or by the bureau.

DXCC NEWS.....
* Reminder -- October 1, 2006, Submission Date for Swains Island QSLs (August 13, 2006, by Bill Moore, NC1L): The DXCC rule change announced on June 14th, 2006, (Please refer to OPDX.763) noted that credits for any new entities created by the rule change would be accepted on or after October 1, 2006. Since Swains Island was added to the DXCC list as a result of rule change, credits for Swains Island will not be accepted until that date. This criteria appies to either paper QSLs or LoTW submissions.

* Bill Moore, NC1L, ARRL DXCC Branch Manager, informs that the following operation is approved for DXCC credit:
KH8SI - Swains Island; From July 28th, 2006, through August 2nd, 2006. This also includes the callsigns K1ER/KH8, KS6FO/KH8, WH7S/KH8, K8YSE/KH8, AH7C/KH8 and KH6BK/KH8.

* ADDITION TO THE DXCC ACCREDITATION CRITERIA (August 11th, 2006). ARRL Membership Services Manager Wayne Mills, N7NG, informs: For a number of years, it has been accepted practice to post DXpedition QSO information on a DXpedition Web site. Although this information is generally limited to callsign, band and mode, it has been useful in reducing the number of duplicate contacts in the DXpedition log. Publishing complete QSO information, or information from which full QSO information can be derived, on the other hand, threatens the integrity of the QSLing process, and is unacceptable. There must be some information that the station claiming the QSO provides based solely on actually being there when the QSO was made. If complete QSO information can be derived from information based on the DXpedition log, the QSL manager's job can be much more difficult if busted calls are involved. To help minimize potential difficulties, therefore, the following restriction has been approved by the Programs and Services Committee, and added to the DXCC Accreditation Criteria, Section III.
"The presentation in any public forum of logs or other representations of station operation showing details of station activity or other information from which all essential QSO elements (time, date, band, mode and callsign) for individual contacts can be derived creates a question as to the integrity of the claimed QSOs with that station during the period encompassed by the log. Presentation of such informa-

tion in any public forum by the station operator, operators or associated parties is not allowed and may be considered sufficient reason to deny ARRL award credit for contacts with any station for which such presentations have been made. Persistent violation of this provision may result in disqualification from the DXCC program."

EX15, KYRGYZSTAN (Special Event). Look for memers of the Amateur Radio Union of Kyrgyzstan to be active as EX15ID from August 25th to September 5th to celebrate the 15th anniversary of Kyrgyzstan's independence. QSL via EX8AB.

IOTA NEWS.....
AF-064. (LH Activity) Operators Matt/ZS1MJJ and Derrick/ZS1DUP will be active as ZS1RBI during the International Lighthouse/Lightship Weekend (ILLW) from Robbin Island (WLOTA 0025, ARLHS SAF-023 and TWLHF ZS-004).

LX, LUXEMBOURG. Operators PA1TK/Theo, PA5WT/Kees and PA3GVI/Rob will be active from JN39AX (Grid Sq.) starting August 30th until September 3rd. Their main goal will be the VHF Contest on September 2-3rd, but there will be HF activity as well in the early morning and evening hours on 30 and 40 meters, CW/SSB. Large Yagi antenna systems will be built for 144 MHz and simple dipoles for 30 and 40 meters. Look for LX/PA1TK in the VHF Contest and LX/homecalls the days before the weekend contest. Contest QSLs for LX/PA1TK go via PA1TK, all others go via their home callsigns (PA5WT, PA3GVI). Pictures and the story can be found on: http://www.sitekreator.com/pa3gvi

QSL INFO AND NEWS.....
QSL VK8AV via Andrey "Andy", UA9XC. He will answer QSL cards direct and through the bureau (100%). Bureau QSL requests or E-mail inquiries can be sent to: ua9xc@komi.ru
Also, QSL RG9A, VK8AV, RP61XX, RI1PI and RI1PXC via UA9XC. Please visit Andy's Web page at: http://www.qsy.ru

VQ9LA AND IRCS. After September 1st, 2006, Larry, VQ9LA, will no longer accept IRCs. Diego Garcia has no place to cash them, and Larry's contact in the states no longer will buy his IRCs. All QSL cards received after September 1st, 2006, with IRCs for VQ9LA, VQ9X and VQ9IO, will be placed in the outgoing QSL Bureau. Larry states, "Hams are dumping them like bad stocks on VQ9LA."

LOG CLOSINGS. Harry, AC8G, informs OPDX that he will be closing the following logs at the end of August: All the various W8KKF and /W8KKF plus various J3 and other callsigns for the 80's, with the exception of W8KKF/KP5 (Desecheo) from 1989, also the W8KKF/WP5 log which was only on 10 meters in the ARRL contest that year. Furthermore, during September, Harry will close other logs through 1995. After the next couple of bureau

mailings, he will then close logs to the end of 1999. QSL W8KKF via AC8G.

WRTC2006 QSL CARDS. Oms, PY5EG, WRTC2006 Steering Committee, informed that "we are printing special QSL cards for all WRTC2006 stations with some beautiful pictures of the event. Our friend Vantuil Barbosa, PP5VB, will be the manager for all QSL cards including PP5WRTC. So QSL cards for all WRTC 2006 stations should be sent to PP5VB: VANTUIL BARBOSA DIAS, P.O.BOX 13, IMBITUBA - SC CEP 88.780-000, BRASIL. Please send SAE and IRCs to cover the mail expenses. Some of the WRTC2006 stations will also have their own commemorative QSLs, and in those cases you should send the cards directly to the address indicated by the corresponding Team. We will reciprocate all QSLs received via BUREAU also. The QSLs referring to QSOs with the MN MS stations should use the QRZ.COM addresses. Thanks for supporting WRTC2006."

SPECIAL EVENT. The 28th Clipperton DX Club (CDXC) Convention will be held in Arcachon (SW of France), September 16-17th. Members of the CDXC will activate special event callsign TM8CDX once again in celebration between September 2-16th. Activity will be on HF and VHF, CW, SSB and Digital modes. TM8CDX will enter the IARU VHF Contest, from the WWGS: JN94ut. All QSOs will automatically be confirmed via the bureau by Rafik, F5CQ (QSL Manager). For those who prefer the direct way, please send a SAE+IRC or 1 USD for EU and 2 USDs elsewhere. The old TM8CDX logbooks are available for search at:
http://www.cdxc.org/dxp/tm8cdx2001/tm8cdx2001.htm
http://www.cdxc.org/dxp/tm8cdx2002/tm8cdx2002-e.htm
http://www.cdxc.org/dxp/tm8cdx2003/tm8cdx2003-e.htm

AMERICA IN DANGER of its own loose Bio-Terror: Is 1984 here?
Secret Bio-Aerosols are misused to HARM and Torture in U.S.A.

CRITICS (political/social/cultural) are harassed and secretly
persecuted
along with their KIDS in schools/colleges, especially, during
tests/exams
(Think of Guantanamo Bay "stress-positions" in 1984-technology context)

Bio-Aerosols and aerosolized chemicals are used to cause:
- severe colds/coughs turning into bronchitis, eye irritation
- bacterial pneumonia/other pneumonia, shortness of breath
- surges of severe headaches, migraines, dizziness, etc.
- fainting collapses by symptoms-mimicking aerosols
- severe stomach pains (sharp, burning, nausea, etc)
- chest-wall pains, heart-muscle inflammations, etc.
- heart attacks under cover of second-hand smocking
- car crashes/accidents by Vertigo-causing aerosols

A network of Secret Gas-Aerosol Rooms operated in US
(in Philadelphia, Narberth, Lower Merion, PA)
(in Wilmington and Newark, DE)
(in Hampton, Williamsburg and Richmond, VA)
AND ELSEWHERE.... details below...
Bio-aerosols used to hurt and simulate panic attacks, etc.!
Soviets locked critics into nut-houses, now WE do the same!
Symptoms-mimicking aerosols do HARM, weak or ill people.

Say "Stop, I care" - call Senate (202) 224-3121
House of Representatives (202) 225-3121
What IS going on in America? *Print and Post*

Big Brother spins protection...
And fear is used to clamp.
Democracy needs action!
On which side do you stand?

Looked at this?!! Go to Google/Yahoo newsGroups:

TORTURE IN USA: Secret Aerosol Rooms

This was a new on-line ad placed in Philadelphia Inquirer and
Philadelphia Daily News on www.philly.com (see full text below)
It was about the secret aerosols rooms in US. One could find it by
searching "secret", say, in the ad section of philly.com.

Democracy can not function effectively without the informed public. As
a former NASA Langley scientist working in the area of nanotechnology
and nanoscale particles, I have been recently exposed to the
establishment of secret gas-aerosol rooms inside of United States, at
least in the Mid-Atlantic region (from Philadelphia to Virginia).
First, the highly irritant aerosols have surfaced at the NASA Langley
Research Center in several safety accidents. Investigations were
blocked, probably, because of lack of Congressional approval for such
financially-lucrative research at NASA. Later, these aerosols had been
encountered outside of NASA in Virginia, Delaware and Pennsylvania
.
This points out to yet another proliferation of originally-sensitive
technologies into domestic American life to hurt and harass people
without a proper oversight and much control. This amounts to torture,
extra-judicial prosecution and authoritarian intimidation tactics. The
use of such irritants and the operations of the secret gas-aerosol
rooms are gross violations of human and constitutional rights of
American citizens and various domestic and international laws.

------------------Full text of an ad from Philadelphia's
philly.com--------------------------
TORTURE IN USA: Secret Aerosol Rooms
US Scientist needs legal help dealing with the secret aerosols rooms
(SARs) operated illegally in Philadelphia area, Newark (DE), Hampton
and Williamsburg (VA). Highly volatile aerosols with and without
bacterial content cause dry cough, airways and eyes irritation, chest
pain and inflammation. FBI and Homeland Security associates are likely
operators of SARs, while collaborators may be hotel staff and
landlords, who get financial/material or other incentives. US citizens
and kids are victims.

AMERICA IN DANGER!

America in danger -
The vice is NOT impeached.
America in danger -
The public trust is breached.

Big Brother spins protection...
And fear is used to clamp.
Democracy needs action!
On which side do you stand?

Which side are you on, boys?
Which side moves you on?

Which side are you on, girls?
Which side moves you on?
(Chorus after F. Reece)

Your church is burned by haters.
The priests to go to jail?
Your dreams are cheyned by traitors,
But hope still shines through veil.

"Dust rooms" came back to gas us
With neo-Naz (or Con) embrace...
New immigrants do make US!
And not the SSuper-race...

Oh? I didn't know that we legally appointed "representatives" to tell
us what people think. Who, pray tell, are these telepathic
"representatives"?

Plenty of value to those who have to work with oscillators of various
types. It's difficult to design a circuit when you have no
understanding of it.

Your contributions to these threads are what have no value.

tell us what everyone thinks.

Steve the Electrical Field emission for 13 Mhz is 15,484 uV/m @ 30
Meters. Omega One Radio is running a power output 100 watts, and the
electrical field emission a 17.5 meters is 2,000 uV. At 30 Meters the
field emissions is 0 uV You Also have to remeber that 13 MHz is the
22 meter Shortwave Band, which does skip. It it possible to hear part
15 stations on that frequency. You can put out a higher power and
produce the required electrical field.

A back of the envelope calculation says you are way over the legal
field strength if you're running 100 watts. You can calculate the
power it takes for an isotropic radiator to produce a field strength
of 15,484E-6 volts/meter as follows:

1. The area of a sphere of radius r is 4*Pi*r^2. An isotropic
radiator emitting P watts at the center of the sphere will produce a
power density of Pd = P / (4*Pi*r^2) on its surface.

2. The power density is related to the electric field and the
impedance of free space (120*Pi) by the formula Pd = e^2 / (120*Pi).

3. Solving (1) and (2) for the power, P, you come up with P = (er)^2 / 30.

So, for an "e" of 15,484E-6 and an "r" of 30, P = 0.00719 watts, or
roughly seven milliwatts.

Since antennas are not isotropic, the power must be reduced even further
so that the electric field will not exceed the legal limit in the
direction of highest antenna gain.

This calculation ignores line losses and final amplifier inefficiencies,
but there's no way in Glendale you can convince me that you can take a
100 watt transmitter and manage to lose so much power that you have
seven milliwatts or less being radiated.

All my DeVry Correspondence School instincts tell me that you are
seriously in violation of the law. Other DeVry grads at the FCC will
immediately agree, as will our distinguished alumnus, KC8JBO, the only
man to have discovered negative VSWR.

Be careful, Todd, and rethink your current station configuration.

Ran into a certain well known cheap-assed ham
radio bastard operator today. Everyone in the local
clubs know him. He stinks, has greasy hair, bathes
monthly (?) and is known to crash ham widow's estate
sales the day after they plant the SK. In short the guy
is a true F-N low life pig. (...you prolly already know
just whom I am speaking of eh...? grin) Drives a beat
up old car with 10 antennas on it.

Today I caught this bastard ham stinkball rooting thru the
battery recycle boxes at the local office supply store.
He dug out two Dell laptop batteries and quickly shoved them
into his dirty overalls pockets he was wearing. (The store is
staffed by college age kids who don't give a s--t anyway
so they let him clean out the recycle bins of
batteries, toner cartridges, old cellphones and other similar
stuff as it's less work for them.....good point I guess.)

Apparently this guy has already hit every recycle bin where ever
he could get away with it, and is hoping to claim all these dead
Dell batteries as his own on their recent Laptop Battery Recall Program
that's been in the news of late. Then when he gets the replacement units
he plans to re-sell them at a profit online. Talk about a cheap
opportunistic
scrounging bum! Only a smelly ex-hamfest bum who used to sell crap at
hamfests
and now scams people on e-Bay could think of something like this....

BWHAHAHAHA Says the know-nothing moron who claimed an Alabama ARES
website was the one for Wiseman's West Virginia local ARES.

The power in wattage and the electrical field are not related because a power output in wattage can produce different fields depending on lengh of coax, antenna, antenna height...and your friends in the Office of engineering and technology at the FCC will tell you that. The antenna I'm using is a very imefficient antenna, in fact the signal is acually coming out of the end of the coax. The coax is a 65 feet of crappy coax I had that had been hit by lighting a few times and one piece even has holes in it. I have a Field strenght meter and at 17.5 meter I'm only getting a power reading of 2,000 uV. At 30 meters I'm getting no voltage. The thing you habe to remeber is that watts can produce different electrical fields and it's the electrical field the FCC is looking at not wattage.

Cease and desist your whining. Such net.KKKoppery as this only makes you a killfilable twit to the rest of usenet. There _ain't_ no justice, and if you file a lawsuit, you will lose, badly and with immense humiliation. "Harassment", the real kind, includes phone calls to you personally, at home, at work, on your cell, and to your friends, family members, co-workers, bosses, and anyone who knows you IRL. You're just being flamed, lamed, and trolled by a bunch of brain-dead CB radio fuckwads. Get over it.

His "word???" They don't call him Robesin for nothing.

It is important for Robesin to make fun of the dead. Shows that he has
no bounds, will do whatever it takes. But no one else can make fun of
the dead, especially his kin.

Somebody has got Robesin's terminal software. He's gonna have a long
sitdown with that sumbich when they finally get together.

Major Screwup is what they called Robesin, and he didn't have a whole
comm center to help make it happen. Did it all by hisself.

Everyone who's anybody has heard of Major Robesin and his legendary
screwups!.

All those MWR/USNMC MARS phone patches home to lonely stateside wives
is what got Major Robesin innerested in phone patchin to begin with.
Forget that official message traffic stuff.

He asked for a mission. For his sins, they gave Major Robesin one.
Eavesdropping on USNMC MARS phone patches to stateside wives.

Can't be true. He was VERY specific about the "A" in front of NCOIC.

So he's lying again. Always got a be just a little better than he
actually was.

<groan> Oh, by Cthulhu, Eris, and the Great White Handkerchief. No one is harassing you *unless* they are: 1) forging posts in your name and with your IP address; 2) making phone calls to you, your family, etc.; 3) sending you/your family/etc snail mail or messages in various other ways; 4) outright stalking you/your family/etc IRL or (in the workplace) making unwelcome advances upon you. If none of these things are happening, and you are just being flamed, lamed, and trolled (with sockpuppets being created in your honour), then you have no possible case for harassment. However, each unique sockpuppet is worth one UV point, and once you have ten points, you can turn them in for your very own Sombrero! As for what that's worth, nothing much, just entertainment value. If people are going to show you their rectums, you may as well take the opportunity to stick daisies, roses (with or w/o thorns), and other flowering plants in said holes.

Yes, I know, that's kind of fuckheaded, but I'm kind of a net.fuckhead. Ask anyone... There is, at any rate, no "other path", excepting the careful use of a killfile. "Cease and desist" Does Not Work, and Will Never Work. ISPs will ignore you. Everyone will ignore you.

You can't get around physics, Todd. The power density is directly related to the electric field through an Ohm's law type of relationship, expressed as the square of the r.m.s value of e, divided by the impedance of free space. Once you know the power density, it is a matter of summing that power density over the radiation pattern of the antenna to figure out the total radiated power. Therefore, there *is* a relationship between radiated power and field strength. In the case of an isotropic radiator, the relationship between radiated power and field strength is easy to calculate, and it provides one with a limiting case which can act as a guideline.

> engineering and technology at the FCC will tell you that. The antenna
> I'm using is a very imefficient antenna, in fact the signal is acually

I'm not interested in your rationalizations, Todd, because I'm not the one who is at risk. In this real world, your power output is about five orders of magnitude larger than the power theoretically needed to produce the maximum allowed electric field. To me, that would be a cause for great concern.

If you want to risk an FCC enforcement action against you, be my guest.

You mean like how you said one "operates" a dictionary instead of
"using" one?

Saggytits Lee steps on his own tiny dick when he tried to correct

Sure he could, Davey. You cut and paste from other websites and add a
few words do it looks like you know what the fuck you are talking
about. You've been caught doing that before. Like the time you tried to
pass off an Alabama ARES website for the one in Wiseman's area.

You want to grasp onto Roger's "woger," we all can see that fatass.

Tell us why you hide behind that fictitious negro name, fatass. Is it because you desperately want to find your real father, who is of that race?

I've bought one of the Ramsey kits which should arrive this week.
http://www.ramseyelectronics.com/cgi-bin/commerce.exe?preadd=action&key=DDF1
I'll let you guys know how well it works when it's assembled.
Tracking to within a couple of houses is easy even without a radio that has
a signal meter but the doppler will make it all that much faster.
the serial ratbags and spastics in Sydney will get a fright when its up and
running. Unfortunately Sydney repeaters are going through one of those
phases where every sub-moron with a radio is having an obsessive compulsive
episode and we have about 20 whispering retards making the repeater
unusable. Hopefully within the next 4 weeks I can post an excel spreadsheet
with all their info. they usually piss off when they lose their anonymity.

Mark, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look
more stupid.

Take a break from the radio groups for a while, Maybe work on your
moon bounce some more.

Mark, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look
more stupid.

Take a break from the radio groups for a while, Maybe work on your

did not work when I said nothing for 4 years SC

Indeed the result was the persuit simply continued into the real Wolrd
with Robeson sending threats and harrassemnt to me and my family and
reports of my alleged crimes and dealing with LE indeed that I why I
returned was learning robeson was behind the effort to report to
authorities that I was abusing my father

indeed the current project is to answer without answering it works
well on Wismen unless Robeson shows up to

Thanks for the reminder on the calculations. Funny but a couple of my younger colleagues who think themselves quite the electronics men still do not think 'space' has an impedance. There is nothing there, after all.. That is what too much PCB layout/CAD work wioll do to one. hehe

Whine, whine, whine. The thing to do with the 'phobes is mock their
(lack of) intelligence, not whinge and cry at them to stop it, like a
geeky kid in a schoolyard. No one has any reason to "cease and desist"
on your say-so alone, and no one will. If you can LART them, go ahead
and do it -- mere threats and requests to stop will accomplish nothing
but earn you a Golden Killfile award, aka *net.death*. If you can't LART
them, quit whining and start mocking! Mind you, I suppose your dyslexia
prevents effective mockery. Nevertheless, you haven't a clue what
"harassment" is, if you think you've been experiencing it. It's far more
than just flaming, laming, trolling, and frogging -- without the
personal, "real-life" element, you're just a crybaby.

Imcidentally, Woger Wiseman is a pedo-K00k!

I would really suggest you read the FCC Office of Engineering and
technology bulletin on PART 15, it OET Bulletin 63
http://www.fcc.gov/Bureaus/Engineering_Technology/Documents/bulletins/oet63/oet63rev.pdf
expecially page 29 which states:

What is the relationship between "microvolts per meter" and Watts?

Watts are the units used to describe the amount of power generated by a
transmitter. Microvolts per meter (µV/m) are the units used to

describe the strength of an electric field created by the operation of a transmitter. A particular transmitter that generates a constant level of power (Watts) can produce electric fields of different strengths (μV/m) depending on, among other things, the type of transmission line and antenna
connected to it. Because it is the electric field that causes interference to authorized radio communications, and since a particular electric field strength does not directly correspond to a particular level of transmitter power, most of the Part 15 emission limits are specified in field strength.

So logically if you use a ineffecient antenna and Shitty coax then you can create a low enough field....I'm tell you right now, I Have a field strength meter that reads microvolts, and I check the field ever morning, at it's not at no 30 meters either, it's around 17.5 meters and the electrical field is 1,0000 uV ...So believe what the hell you want I check it every morning and it's 1,000 uV @17.5 meters and at 30 meters it's 0. I would also point out I come from a long line of electricians (my father, my grandfather and my great grandfather) and THEY will back me up.

For a long time my web site in qsl.net has been unreachable and I have also been receiving regular junkmail to my qsl.net address. I would like to close my account but Al Waller doesn't seem to respond to emails (I hope he is alright).

Have not found any info searching the internet so I am hoping someone can let me know what is happening and how I can close my qsl.net account, since it is of little use now.

he is Ham operator K4YZ is his call he uses several none posting mostly
varriants onthe call sign at aol and yahoo but his name Steve Robeson
as well

started 8 years ago when I dared disagree with about Morse code testing
and decided to threnten my murder while as It happens Iwasn't even
home so he voiced his threat to my father on the phone. has conitued
various efforts at harrassment in both the real and virual world ever
since. (threats of mruder meyhem falsereports to Law Enforcement of
Rape child molesting, welfare fraud and anything else. Since feeding

That is why we always register for Pwofessow Woger's classes on
negative VSWR and especially his classes on RMS voltage.
Pwofessow Woger has perfect attendance at ARES meetings in
his area.

[snip]

Todd, there isn't a law you can quote which governs physics. You
can't repeal the law of gravity, and you can't logically state that
transmitter power and electric field strength are independent of one
another. Think about it: That idea doesn't even make sense.

: So logically if you use a ineffecient antenna and Shitty coax then you
: can create a low enough field....I'm tell you right now, I Have a field
: strength meter that reads microvolts, and I check the field ever
: morning, at it's not at no 30 meters either, it's around 17.5 meters

Do you know the difference between the far and near fields? Are you
aware that an ordinary field strength meter can give you wildly
incorrect results when it is placed in the near field of an antenna?
Most engineers would tell you that you have to be at least five
wavelengths away from the antenna (and preferably ten) before you are
out of the influence of the near field. At 33 MHz, the wavelength is
roughly nine meters; therefore, your meter is in the near field of the
antenna, and all bets are off.

: and the electrical field is 1,0000 uV ...So believe what the hell you
: want I check it every morning and it's 1,000 uV @17.5 meters and at 30
: meters it's 0. I would also point out I come from a long line of
: electricians (my father, my grandfather and my great grandfather) and
: THEY will back me up.

Sigh. That's what we need: Electricians who never even heard of free
space impedance.

Mark, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look

Mark, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look
more stupid.

Take a break from the radio groups for a while, Maybe work on your
moon bounce some more.

Again it's NOT my rational it's the FCC's but like I told Stebie the
HAM and Internet COP if you have a problem with it, go bitch to The FCC
and I'll throw their little bulletin both in theirs and the judges
face, along with a few other things.. including how much of sick joke

That's how they have lied all these years about the waivering process, they go to the courts saying one thing, then turn around and do another. Same thing here, they publish bulletins saying one thing and then go after people who's following the same rules, claiming something different.

If they want to complain about the station they can file the complaint here

http://www.fcc.gov/eb/sed/ulo.html
Complaints

Written complaints alleging violations of Section 301 of the Communications Act should be sent to the Federal Communications Commission, Enforcement Bureau, Spectrum Enforcement Division, 445 12th Street, SW, Washington, DC 20554. Complaints should include the name of the operator, if known, how the station identifies itself, the location of the station, the operating frequency, the type of station being operated, and whether the station's operation is causing interference.

For complaints involving unlicensed amateur radio operations, please click here.

For complaints involving unlicensed broadcast station operations, please click here.

But I will fight it ever step of the way, I would like them (the FCC) to explain to the judge why they didn't consider my Seven (7) broadcast applications and Waivers?? So all I ahve to tell stebie and his butt buddies go for it!!!

Just WHAT IS * TEA-BAGGING * anyway ??

from: http://en.wikipedia.org/wiki/Teabagging

Teabagging is a slang term for the act of a man
placing his genitals, specifically the scrotum,
on the face, head, or in the mouth of another
person. Windmilling is striking someone in
the face with a penis (also known as a Fodunk,
a "Turkey Slap", a "Mushroom Stamp", and a "Love Slap").

As a sexual practice, "teabagging" refers to a man
dipping his testicles into the mouth of his partner
as a form of oral sex; thus his partner was "teabagged",
as the practice vaguely resembles dipping a
teabag in a cup of water. Sometimes teabagging
is taken to specifically mean the act of a male stripper
repeatedly tapping and grinding his testicles into
a patron's forehead. In this case the patron was "teabagged."

Teabagging first entered pop culture in John Waters' cult film
Pecker (as an act - the forehead variety of teabagging -
banned in a particular male strip club). Waters discovered
the practice at a Baltimore bar called the Atlantis. He also
claims it has since been superseded by the related act of
helicoptering, "where they whap-whap you in the face
with their hard-on" [1]. The term was more recently
described in detail in the DVD Extras of The Aristocrats
by Hank Azaria and also on the television series Sex and
the City and appeared again in the film Soul Plane, included
in a list of sexual acts and later defined. On the DVD of
the film Jay and Silent Bob Strike Back, Jay sings a song
which includes the line "teabag my balls" in one deleted scene.
It also appears in America (The Book) by the staff of
The Daily Show and has been referenced on the television
show by its host, Jon Stewart. It also appears as a kind
of teenage party hoax in the movie In My Father's Den and
in Brandon Vaughn's common acts of degradation DVD.
It is featured in the HBO series Curb Your Enthusiasm
(season 1, episode 3). It was described on an episode
of the television series Law and Order: Special Victims
Unit. Finally, on July 30th 2002, the term was used several
times on the air during a serious newscast when
Captain Janks made a crank call. Also referenced in a

dialog between David Cross and Michael Cera in an
episode of Arrested Development (Dec, 2005). It is also
used in the American version of Takeshi's Castle (MXC)
whenever the green suited sumo wrestler (named the
Green Teabagger) wins by sitting near the contestants face.
On the hit MTV show Newlyweds, Jessica Simpson,
Jessica and her Mom went out shopping and stumbled
upon a brand of clothes labeled "teabagging", they
then went on to discussing what they thought the term meant.

A variant known as a roman helmet or roman soldier
involves laying the penis along the person's nose while
placing the testicles on their eyes, somewhat resembling
the helmet of a Roman legionary. This can also be referred
to as a Gonziano in reference to the Muppet character
Gonzo, who has a long, phallic nose. "Roger's Profanisaurus"
also refers to this as the "Dutch blindfold". This practice,
widely known in high-school and fraternity party circles,
has become known as a "Famous Henry." In some areas
of the country, particularly Minnesota, this practice is
known as a "Cap'n Crunch," for the hat worn by the
iconic breakfast cereal mascot.

As practical joke Teabagging can also be practiced
as a practical joke. This is sometimes known as
cat-braining or Cock Slapping, after the appearance
of the scrotum; an alternate term is hanging brain, a term
also used as a level name in the computer game Marathon
Infinity. In its joking form, teabagging is attributed as a shaming
or a degradation of the victim. The practice is most
common among high school and college males. Teabagging
often occurs when these males are intoxicated with alcohol
and have a camera at hand. Afterwards, it is not uncommon
to see flyers, postings and e-mails of the victim, with a
scrotum across the forehead, in an attempt to socially
consummate the shaming aspect of this male ritual.
In addition to the well known and often used scrotum
on the forehead variation of teabagging there is also the
act of dipping one male's scrotum into the drink of
another unbeknownst to the victim. This too is most
frequently done while the males are intoxicated.
If time permits, multiple males dip their scrotums into one drink.
The act is only revealed to the drinker after the beverage has been
finished.

- END -

(Now..........don't y'all feel MUCH better ??)

Hello all ,

I would like to install a VHF-UHF antenna on my motorcycle . It's a Suzuki GSX750 . I did some tests with a Diamond NR-770H and it works well . The only problem is that the antenna is to big for such a bike .
Afterwards i did a test with a Diamond NR-77 . The antenna is about 43 cm and that's about the size i would like to use .
The problem i have with this antenna is the swr , it's to high .

Anyone an idea how i can solve this problem ?

Many thanks .

Tom

The last part of that explanation above sheds a whole new light on
ole ex-14.313 mHz's Dumbass Donnie's favorite radio buddy
and his peculiar and eccentric on the air habits from up in MN !

Gee. I miss listening to the kook from GA and his matching
8-Ball bookend from MN. Now all we gots left in BLB in OK
on 14.313 in the daytime and his buddies who all sound like
they are 3 steps away from the cemetary vault.....

Gotta enjoy these ham radio clowns folks, their bad health
habits (95% of em smoke, eat Big Mac's daily, don't exercize
etc...) and often advanced age means that they won't last long.
Which is also good news as their XYL's usually can't wait to
unload all their "ham radio junk" a week after they've been
planted, which means easy pickup and re-sale $$'s on E-Screw.

I just F-N love it all !!

Andy suggests:
Well, if it were me, I think it would look really cool on top
of my helmet.
As an alternative, you could mount a couple of Viking horns
on either side of the helmet, and use them as a dipole....
Use Texas longhorns if you want to go to HF......
Lots of fashion possibilities..

Good luck, Andy W4OAH

You may not be getting a proper counter-poise to the antenna system.

I would check grounding on the antenna and make certain the antenna
mount is in good solid contact with the metal frame of the bike.

You mentioned the larger antenna worked well. Does that mean the SWR
was good or it just performed adequately?

Which band is having the SWR problems?

What type of mount does the Diamond use? I am very partial to the NMO
type antenna mount. I know there are some antennas that use an SO239
type mount which is just a "UHF" connector on the end of a piece of
coax. These are not that well suited for 70cm operation although you do
see them quite a bit.

Also, how much power are you going to be putting into the antenna? I
would be concerned about RF exposure if its very much.

Just a word of caution:

Years ago, when the Brussels police had VHF radios mounted on BMW bikes for the first time, the ABS brakes stopped functioning when the transmitter was on (Not only the ABS, the brakes).

I suppose ABS brakes are more EMC proof nowadays, but you can not be too sure.

Hi Tom,

You might want to try an HT antenna, such as the RH77CA - about 38 CM
long.

Mark, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look
more stupid.

Take a break from the radio groups for a while, Maybe work on your

Mark, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look
more stupid.

Take a break from the radio groups for a while, Maybe work on your

Rog is acting even less stable than is his norm. Two days ago he

believed that I was Stagger Lee. Yesterday he thought Lloyd Davies was

Stagger Lee. Today he seems convinced that I am Stagger Lee.

He's even inventing new words like "henpeckhim". He has a fixation on

prostitution and animal sex. The UnWiseman may be headed back to the

funny farm.

/////

Wog has a few "issues" that the rest of us are, fortunately, not burdened with. For us to walk in his shoes would require that we be in the working, mentally dysfunctional world in which he exists.

Roger is clearly delusional. His cranial activity seems to be disrupted by random electrical synapses that occur whenever he touches a keyboard.

In short, his brain misfires more often than not.

Two days ago you were Stagger Lee. Yesterday Lloyd was Stagger Lee. Then along comes the 'real' Stagger Lee who posits real and to the point mathematical equations and Roger, unable to understand same, accuses Stagger of plagiarism.

It never occurred to Roger that just maybe Stagger Lee knows of which he speaks, since Roger has not the education to understand and is, himself, a renowned plagiarist.

It is a hoot to see Stagger Lee get the best of Roger at every turn. Stagger Lee is clearly Roger's mental superior.

Wiseman will get his Kook awards in due course -- the Foam Duck, the BU,
the Bartlo, the Tar & Feathers, the GK -- but not right now. Meanwhile,
I'm making Sco-vile foam at the mouth, and showcasing your
GK-worthiness. Oh, and making the Outer Filth in rmcr regret they ever

ever be a good idea.

Try contacting your local PD radio repair place.

Motorcycle police have been using VHF-UHF radios on their
motors for over 40 years. Successfully. They must be
doing something right, yes? :-)

Talk to your local two way radio supplier/service company about a
"ground independant" antenna.

Oh, would that he'd retire well before then. He is currently semi-retired
anyway, in that he claims he cannot partake in gainful employment due to
some physical malady. His mental malady is on open display, however.
The poor guy suffers from extreme myopia in that he cannot (refuses) see
that he has contributed just as much, if not more, to the demise of this
newsgroup as has Wiseman.
Were it not for delusions, Markie would have no mental processes whatsoever.
The interior of his head is just one big, vapid happy bean bag.

Wiseman was there. You didn't see him? He was lurking in the men's

door and stood in there for more than 90 minutes with his pants around his
ankles. He even had a small HT with him and was calling CQ (calling queers).
While I didn't see this for myself, Lloyd told me that his arch enemy was,
indeed, in attendance.

3409. Creating vanity callsign with personal name..

Hi Everyone,

I'm new to amateur radio, and I was wondering what folks think of creating a vanity callsign based on one's personal name? I've only had my callsign for a week, and it's really not grabbing me. The letter combination isn't easy to say, and quite honestly I don't care for it. I've decided to do a vanity callsign, but I was wondering if some look at it as vain or dumb to use one's name within the vanity callsign. For example what about someone named John using KW3JON or Tom K3TOM?

Just curious what folks think of such callsigns. I'm working on getting my license upgraded, and if/when i make it to Expert I might change to a 1x2 callsign (isn't that an option?). But for now I just need something I'm familiar with.

Thanks in advance for your thoughts on this ..

Alex

3V8, TUNISIA (IOTA Op!). Look for Francois, F8DVD, to be active as 3V8SM from the facilities of the Scout Houm Souk ARC on Djerba Island (AF-083), August 28-31st. He intends to be active on both CW and SSB, on all bands, from 80-10 meters, propagation permitting. Francois will use a FT-767 w/100w into beam and dipoles. QSL this activity ONLY to F8DVD, either direct (SAE + IRC or 1 USD for Europe, and 2 USDs for Africa and elsewhere) or via the French REF-Union Bureau. Please nothing via 3V Bureau. F8DVD's

address is: FRANCOIS BERGEZ, 6 RUE DE LA LIBERTE, F-71000 MACON (FRANCE).

4TH AAW. Dates have been announced for the next and 4th Antarctic Activity Week (AAW). Gianni, I1HYW, informs OPDX that Worldwide Antarctic Program's (WAP) Antarctic Activity Week 2007 will be held February 19-25th. If you go to the WAP's Web site, you will find a new banner with the name "Antarctic Activity Week". By clicking on it, you will be moved to the AAW callsigns history list from the first AAW (2004) through the 4th event of 2007. Several stations have already announced/booked for next year's event, and you can see their callsigns listed in the 2007 session. AAW is an unique world-wide event where Hams are "celebrating and working to improve Worldwide interest around the Antarctic Continent and its related matters, to understand and share what the Nations and Organizations are doing to study and protect this still non contaminated corner of the world and share from there, a message of peace." Apply for your ANT special callsign, and let them know about it in order to issue your WAP reference and be ready on time to join them. For Award collectors, the WAP-ASEA (Antarctic Special Event Award), managed by ARI Cassino, is sponsoring this particular event: http://www.aricassino.it/diplomi.htm
WAP states, "Antarctica is much more than an amusement, Antarctica is passion and culture!" Visit their Web page at: http://www.ddxc.net/wap

4W, TIMOR-LESTE. QSL Manager, Dennis, PA7FM, informs OPDX that 4W6AAB went QRT on the 12th of August after almost 4 weeks in Timor-Leste. Almost 3000 QSOs were made on 40-10 meters on SSB/CW/RTTY and PSK31. Dennis mentions that for those who missed him again.... it was probably due to the very limited operation hours. He will most likely go back, maybe at the end of this year. QSL cards will be printed soon, while the log is online at: http://www.pa7fm.nl
QSL via PA7FM: Dennis Robbemond, Loggerhof 11, 3181 NS Rozenburg, The Netherlands.

4X, ISRAEL. Look for Hal/W8HC, Randall/K8OQL and four 4X operators to be active as 4X0WV during the CQWW DX SSB Contest (October 28-29th) as a Multi-? entry. QSL via W8HC.

5Z, KENYA. Nick, G3RWF, is planning to return to activate 5Z4LS again in November for the CQWW DX CW Contest. He is expected to probably stay a few more days than last year. Nick is planning to use the Radio Society of Kenya clubhouse in Nairobi again.

7P, LESOTHO. Operators Wolf/DH3WO, Mathias/DJ2HD and Jan/DL7JAN will be active as 7P8WO, 7P8DJ and 7P8JF, respectively, from Roma between September 3-12th. Activity will be on 80-10 meters on CW/SSB/RTTY and PSK31. They will have two stations on the air. QSL all callsigns via DL7JAN only, either direct (QRZ.com) or via the bureau. Visit the following Web page at: http://www.qsl.net/dl7jan/

AFRICAN TOUR. Miki, YT1CS, is planning another trip to Africa during the month of October. He plans to activate a couple of IOTAs and countries during his travels. So far his list of destinations include the following Tanzania (5H), Kenya (5Z), Burundi (9U), Ethiopia (ET), Comoros (D6) and

Mayotte (FH). During his 5H and 5Z trips, Miki will activate the following IOTAs: Lamu Island (AF-040; 5Z4), Wasini Island (AF-067; 5Z4), Zanzibar (AF-032; 5H3) and Pemba (AF-063; 5H3). The duration of his stay is dependent on sponsor's support. Miki is looking for sponsors and can be reached at: yt1cs@ptt.yu

ANTARCTIC RADIO OPERATOR NEEDED. Alan, VK6CQ/VK0LD/VP8PJ/9V1DX, reports: "I am looking for someone for a temporary position as a radio/communications operator at Patriot Hills, Antarctica, this coming season. The job involves maintaining voice communications with Twin Otter aircraft and mountaineering parties on HF, VHF and Iridium satellite. This would suit an experienced HF amateur radio operator and is a paid position with airfares to/from Punta Arenas provided. Patriot Hills is located at 80 degrees South, at the southern end of the Ellsworth Mountains and is serviced by a weekly 5 hour flight on an Ilyushin 76 cargo jet from Punta Arenas, Chile. Accommodation, food etc. at Patriot Hills is provided free of charge. Dates are approximately mid October 2006 to end of January 2007, but a shorter period may be negotiated for suitable candidates. The position requires very good English language skills and a reasonable level of fitness." If you are interested, contact Alan at: vk0ld@yahoo.com To see pictures and info on Patriot Hills, visit Alan's Web page at: http://www.geocities.com/vk0ld/home.html

CN, MORROCCO. M'hamed, CN8NK, is expected to be active on RTTY 30 meters very soon.

DXCC NEWS.....
Followup -- DXCC Accreditation Criteria Change (August 14th, 2006). Wayne Mills, N7NG, ARRL Membership Services Manager, reports: "It has become commonplace for DXpeditions to publish the band and mode for selected callsigns. While this reduces the overall integrity of the QSLing process slightly, it's a reasonable compromise. In almost every case, the new accreditation rule will change nothing. Publishing band and mode information for each callsign (as is now done) is perfectly acceptable. It is only the rare case where complete QSO information is published or can be derived for the published data that we are concerned about. Understand that were a DXpedition log (or any log for that matter) to be inviolable, that is never to be changed, these matters would be moot. In fact, it would be better to publish the logs. But logs are changed, and most times for good reason. Can you imaging the grousing if a DXpedition were to refuse to make any changes to the log? Let's face it, then. Logs are changed. The existance of a complete log (including time, date, band, mode and callsign, or enough information to derive those parameters), available to all interested parties can create difficulties for QSL managers, and in the end call into question the integrity of the QSLing processes. What's a manager to do when two or more DXers with very similar calls claim a single QSO? This situation can and does happen much more frequently when a complete log is published. The ARRL DXCC Branch has spent many thousands of man-hours over the years checking cards and making every effort to maintain the integrity of the DXCC program. Most DXers would have it no other way. When we were considering rule changes

back in the late nineties, many DXers went out of their way to comment to the effect that we should never compromise on integrity. Publishing complete logs on the Internet can and will impair the integrity of the program. We intend to resist."

EA8, CANARY ISLANDS. Frank, DH5JG, will be operating as EA8/DH5JG from Lanzarote Island (AF-004, DIE S-007) from August 30th until September 12th. Activity will be on 40-10 meters including the WARC bands. Modes will be CW, SSB and RTTY/PSK31. He will also participate in the upcoming IARU Region 1 SSB Field Day and WAEDC SSB Contest. QSL via DH5JG by the bureau (DARC).

IOTA NEWS.....
AS-093. Kang, DS4DRE, will be active as DS4DRE/4 from Hong Island now through the end of the year. Activity will be on 80-10 meters CW/SSB. QSL to his home callsign, direct or by the bureau.

EU-048. Chris, F8EUK, will be active as F8EUK/p from Houat Island, September 10-17th. Activity will be mainly CW on 30/20/17/15 meters. He will use a FT-857D w/100w into a multi-doublet and HM vertical. Operation will be limited because he is on holiday. QSL via the bureau.

EU-064. Operators Gilles/F5JPG, Michel/F5UTL, Dominique/F1CNB, Luis/ F5THW and Juan/F5IRC will be active as TM2P from Pilier Island (AT-30 and Lighthouse DPLF: PB032, WLOTA: LH 622 and ARLHS: FRA 396), between September 8-10th. Activity will be on 80-10 meters (no 160m), CW, SSB and PSK31. QSL via F5IRC.

IRCS. Alan, VK4AAR, has received important information direct from the Universal Postal Union (in Switzerland) in response to his inquiry regarding the expiry dates for IRCs. Here is what he received from the IRC and Philately Programme Assistant: "Since 2002, the validity date for exchange is printed on each international reply coupon.
The new international reply coupon (Beijing model 2), on sale from 1 July 2006, is valid for exchange until 31 December 2009.
The international reply coupons (Beijing model 1), on sale from 1 January 2002, must be exchanged before 31 December 2006. They will have no value

after this date.
I would like to inform you that International Reply Coupons (IRCs) issued from 1906 to 1974 (in blue colour) do not have any value for exchange, but maybe they have a historical value. You may wish to consult a collector of IRCs to know if the coupon has any financial value.
You should understand that currently the IRCs issued from 1975 to 2001 (in yellow colour) are exchangeable indefinitely according to the current UPU rules. However, this kind of IRC cannot be anymore exchangeable, in term of finances, between the postal administrations since 30 June 2006. Therefore, it means that some of them do not accept anymore this coupon for exchange.
The exchange of IRC (after the customer's exchange) between the postal administrations is managed by a bilateral agreement, and if there's no bilateral agreement, the postal administrations loses money."
Readers are suggested to visit a Web page that Jim, AD1C, has put up about the above IRC information (from the Universal Postal Union). On the Web site, readers will see the different IRCs as mentioned above. Go to: http://www.ad1c.us/upu_rules_irc.htm

Activity took place during 6 days with the solar flux around 73 and the K at 1. QSL via JA1BK. For the story, log search and pictures visit: http://www.iijnet.or.jp/JA1BK/home_e.html

LZ1900, BULGARIA (Special Event). Several members of the Bulgarian Federation of Radio Amateurs (BFRA) will activate the special event callsign LZ1900K (LIMA ZULU ONE NINE ZERO ZERO KILO) through the end of 2006. Activity is to commemorate the 1900th anniversary of the proclamation the of ancient city of Pautalia (modern Kyustendil) by Roman Emperor Mark Ulpiy Trayan for Municipia (Province center), including the right of the city to issue coins. QSL preferably via the LZ QSL Bureau to LZ1BJ.

NP2, U.S. VIRGIN ISLANDS. Members of the Flordia Contest Group will be active as NP2B during the CQWW DX SSB Contest (October 28-29th) as a Multi-? entry. Operators mentioned are George/K5KG, John/NP2B, Esteban/ W4DTA, Julio/WD4R and Fred/K9VV. QSL via NP2B.

PIRATE ALERT. Reports indicate that the activity of a 9A/TA3J back in July was a PIRATE. Berkin, TA3J, states that he didn't operate from Croatia. Save your green stamps!

QSL INFO AND NEWS.....
4O8O via YT1HA. Zik, YT1HA/4O8O, informs OPDX that he is still waiting for QSL cards from the printer and the QSLs will be sent out when he receives them. QSL is "OK" direct via YT1HA or e-QAL via eqsl.cc. This QSL counts for Serbia.

QSL DA2006LH via the Bureau or direct to DG0UFA (QRZ.com address). Activity was from Staberhuk Lighthouse (ARLHS FED-226, WW Loc. JO54PJ) located on Fehmarn Island (EU-128, O-01 for the German Islands Award) during the International Lighthouse/Lightship Weekend.

QSLs for DF0HC will go out automatically via the DARC Bureau or (if you really need a direct card) via DJ5KP (address is good on QRZ.com or actual callbooks). Activity was during the International Lighthouse Weekend from Helios Tower (FED-107) in Cologne. More info at: http://www.mydarc.de/dn1kav/

Direct QSLs for T96Q go via T93Y: Boris Knezovic, P.O. Box 59, Sarajevo BA-71000, Bosnia and Herzegovina (w/SAE and 1 IRC or 2 USDs). Bureau cards will be forwarded to Boris. QSL requests sent to T96Q's address will be forwarded to Boris every month or two, so if you want a quick answer, please do not send your cards there. All questions regarding QSL traffic for T96Q can be sent to: boris@t93y.com

Nilay, TA3YJ, QSL Manager for the following callsigns states you can find out the status of your QSL for sending (incoming/outgoing) direct and via the Bureau QSL cards at the TA3YJ QSL Service. She is the QSL Manager for: TA3J, TA3J/0 (AS-099), TA3J/0 (AS-115), TA3J/1, TA3J/3, TA3J/3 (TUR 006), TA3J/4, TA3J/4 (TUR 065), TA3J/60, TC2K4J, YM125ATA, TA3PI, HA/TA3J, LZ1/TA3J, LZ2/TA3J, OE/TA3J, OK/TA3J, SV1/TA3J, SV4/TA3J, TA3YJ, TA3YJ (AS-099), TA3YJ/3, TA3YJ/3 (TUR 006), TA3YJ/4, TA3YJ/4 (TUR 065), TA3YPI, LZ2/TA3YJ, SV1/TA3YJ, YM3BU, YM3ATA, YM3SV, YM75TA, YM21TA, YM3LZ (WPX2000SSB) and YM3LZ (WAE2000SSB). To see the status of your QSL, visit the Web page at: http://www.geocities.com/qslservice/ta3yj

SPECIAL EVENT (911). Robert, W2IK, will again be operating special event station W2IK/WTC911 on September 11th, from 1300-0300z (9 AM-11 PM EST). He states that activity is "IN HONOR OF THOSE WHO LOST THEIR LIVES DURING THE WORLD TRADE CENTER DISASTER. I WILL BE USING MY PERSONAL CALL BECAUSE IT WAS THE FIRST CALL THAT WAS SENT FROM 'GROUND ZERO'." Look for activity on the upper portions of 40/20/15 meters SSB. QSL by sending a 9x12 SASE to the QRZ.com address of W2IK: PO BOX 6731, San Antonio, TX 78209. A special QSL certificate has been printed. Visit the following Web to see

last year's event: http://hometown.aol.com/alonestaryank/W2IKWTC911.html

SPECIAL EVENTS (Ukraine). Look for the following special event stations
to be active from the Ukraine between August 24-28th. Activity is to
celebrate Ukraine's 15th anniversary of independence. Operations will
be on all HF bands. Special event stations are:
EO15FF - QSL via UX0FF, direct or by the bureau.
EO15FW - QSL via UT3FW, direct or by the bureau.
EM15FA - QSL via UT2FA, direct or by the bureau.

USI NEWS.................
TN036. Operators Ralph/WA3YFQ, Joe/WA3WMB and Loren/WA3WZR will activate
Goat Island (Not IOTA, but a USI new one!) located in Dale Hollow
Lake, Pickett county, Tennessee, between August 21-25th. They
will use the callsign WA3YFQ for this operation. Activity will
start around 1600z on 7250 kHz, then they will QSY to 14260 kHz.
QSL via WA3YFQ (QRZ.com).

VE, CANADA. Laci, HA0HW, will once again be in Canada between August 20th
and September 17th. He informs that he will try to operate as VE3/HA0HW
from VE3NE's QTH as he did last winter. Laci states that this isn't a
"DXpedition" it is a work-trip (on the job training). QSL via HA QSL
Bureau or direct to QRZ.com address.

VP5, TURKS AND CAICOS ISLANDS. Operators Frank/WA2VYA, Tony/W2WAS and
John/N2VW will be active as VP5T during the CQWW DX SSB Contest (October
28-29th) as a Multi/Multi or Multi-2 entry. QSL via N2VW or LoTW. Their
activity will be from VP5JM on Providenciales (NA-003). Look for CW and
operations on the WARC bands before and after the contest. Operators will
sign using VP5/homecall. QSL to their home callsigns. No eQSLS.

W7, UNITED STATES (RTTY from MT!). Three members of Cinco Nueve Contest
Group from Oregon/Southwest Washington, will participate in CQ WW RTTY
Contest (September 23-24th) from Montana. The trio will be active from
W7LR's QTH and use his callsign for the contest. QSL via W7LR. Outside
of the contest, operators will be active a bit using homecalls/7 -- for
those QSOs, the QSLs go to either Al/K7AR, Mark/N7MQ or Ron/WJ7R.
If there are special RTTY WAS needs, Email to N7MQ [n7mq@arrl.net], and
they will see what they can do. No promises on skeds.

ZL, NEW ZEALAND (Ops Needed!). Brian/KA7KUZ and Brian/ZL1AZE are assembling
an international team entry in the 2006 CQ WW SSB Contest from the Quartz
Hill (ZL6QH) superstation. Transportation will be provided to and from
Wellington Airport with accommodation provided at the station. With the
assortment of Vee beams, yagi beams, rhombic and low band sloper antennas
available at this site, there will be no shortage of operating opportunities
before, during and after the contest. This may be the last CQ WW SSB Contest
from ZL6QH for some time; it is likely that the antennas will be removed
in 2007 for the construction of a wind farm. If interested, please contact
KA7KUZ at: ka7kuz@arrl.net
Visit the Quartz Hill's Web page at: http://www.zl6qh.com

Well, my two passions are flying and ham radio or electronics in general;
I've got a company called RST Engineering after the old CW method of signal
reporting (Readability, Strength, and Tone). THe call sign here is WX6RST
(WX is the aviation abbreviation for weather and RST are the above mentioned
CW abbrvtns).

The airplane registration number is N 73 CQ.

The Mazda license is KB9MII (the wife's call) and the Subaru license is
WX6RST.

You can do anything you damned well please. And it is Extra, not Expert.

Post your current "non-grab" call sign and I'll bet we can come up with some
Philthy Phonetics for it that you might even like {;-)

Mark, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look
more stupid.

Take a break from the radio groups for a while, Maybe work on your

Mark, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look
more stupid.

Take a break from the radio groups for a while, Maybe work on your

Poor Davey, his lameness shows why he was relegated to the press
releases after his rear echelon stint in 'nam. Too bad he didn't
inherit his pedo father's news writing abilities, feeble as they were.

Hey, Davey, you are talking to yourself again. Or are you reenacting
those QSOs with the out of band Frenchmen again?

Poor Toad, he can't get anybody to listen to his hack "show", just like
he can't get anybody to attend one of his "hack theatre" projects.

Wrong, Marqueer. But then you faked EME contacts and talked to
unlicensed stations.

Check out the FCC regs.
"Sec. 15.225 Operation within the band 13.110-14.010 MHz.

(a) The field strength of any emissions within the band 13.553-
13.567 MHz shall not exceed 15,848 microvolts/meter at 30 meters.

(b) Within the bands 13.410-13.553 MHz and 13.567-13.710 MHz, the
field strength of any emissions shall not exceed 334
microvolts/meter at
30 meters.

(c) Within the bands 13.110-13.410 MHz and 13.710-14.010 MHz the
field strength of any emissions shall not exceed 106
microvolts/meter at

30 meters. "

My ISM/HiFer beacon has been copied from over 100 miles away.
And it is not running anywhre near the legal limit. At max if is
adjusted
for a S2 reading on a R2000 about 1 mile from the ISM "intentional
emitter".
I am running AM so SSB should carry much further.

Again steve, it's not Wattage the FCC is looking at under part 15, it's voltage and you can produce different wattage at one voltage. I'm running 100 watts but at 30 meters my voltage is 333uV. If one votage say 110 volts puts out one wattage, then why do we have an assortment of wattage of light bulbs?? but hey steve, if you think I'm Illegal, bitch to the FCC, if not shut the HELL UP!!!!

OMEGA ONE RADIO
13.556.00 MHz
100 watts of power!!!

I know you're right.

Mark butts into treads that aren't even about him with his 'cease and desist' and all his other unintelligible mis-spelled crap. Then when he gets flamed back or called a tard over it, he thinks it's a personal attack. Mark just needs to learn to keep quiet and let the hams talk radio.

I'm trying to help him by reminding him to not butt into threads and to ignore attacks so those of us that care about ham radio can get back to discussing the radio issues that will protect and help preserve the service.

Mark's posts make it tough to discuss radio issues because everyone is to busy laughing at him they forget the issue. He has even got the AUK goof-balls teasing him now.

Maybe that's Marks plan. To disrupt the radio groups so we Can't discuss issues needed to save ham radio.

He did say he wanted to be the first no-code Extra.

Markie, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look
more stupid.

Take a break from the radio groups for a while, Maybe work on your

Testimonials like yours will bring a smile to every Real hams face. :-)

Just learn the code to 22 wpm. That would be a nice edge if you still had
to take a 20 wpm CW test. But if you can only get your speed up to 16 or
17 words per minute, upgrade anyway. We need good people like you on the
ham bands and on usenet. LOL

Why's that?? the voltage at 30 meters at my station is well below
15,848 uV. What steve and the others don't understand is you CAN
product different wattage at a certain voltage, if not we wouldn't 60
to 100 watt light bulbs that screw into 110 V

The FCC changed that rule last year...some sites don't have the new
rules posted. The voltage now is 15,848 uV/m @ 30 meters

The FCC is looking at VOLTAGE, not WATTAGE, voltage can produce
different types of voltage...again if this is not so, then why do we
have an assortment of light bulbs that range from 60 watts to 100 watts
when you plug them into 110 V??

CORRECTION:

The FCC is looking at VOLTAGE, not WATTAGE, voltage can produce
different types of WATTAGE...again if this is not so, then why do we

have an assortment of light bulbs that range from 60 watts to 100
watts
when you plug them into 110 V??

Wrong. FCC gonna shut your dumbass down for sure.

they are looking at microvolts per meter, which is "field strength", not
voltage, numb nuts.

Because the bulbs has different resistances, dipwad. The power is v^2/r
like any cb operator knows. Free space has a resistance too and it is
377 ohms. But you can't change the resistance of free space like you
can do with a light bulb. So the power is e^2 / 377 watts per square
meter no matter what you do...dipwad. Mark and I are waiting for you to
get that NAL so we can throw a beer enema party you dumbass electrician.

your sole purpose in posting is to help your RRAP group earn its Busted

so?
what matters is what power gets to ANNTENA not what is put out by the
tranmiterr
likewise even where wattage is the issue like the Ham bands I tansmit
with (at the amp) say 3 kw if my my feedline loss is 50percent
> Mark and I are waiting for you to
> get that NAL so we can throw a beer enema party you dumbass electrician.
no I am quite certain Todd will not get an NAL

indeed I would be pretty sure if I had any reason to believe that Tood
was transmitting over the line somewhat, the FCC doesn't realy care

now find a way to convining accuse Todd staion of somehow devilering
coded messages to Al Queda sleeper cell and you might have a chance at
geting an investagation

It isn't me, that station was transmitting on 20 meter long before I

Toiddie's still confused and PO'ed at the FCC...Wonders why the
FCC didn't consider his applications for LPFM stations written in
crayon. And if that wasn't bad enough, now he's miffed that he can't
get any cooperation for FCC staffers after having used just about every
profanity and vulgarity in the book on them.

Personally...I say THANK-YOU FEDERAL COMMUNICATIONS COMMISSION!

Noooooo.....

I >>>KNOW<< I am telling the truth.

YOU are the "sick ####" that thinks telling lies is somehow
morally acceptable.

Um dumb fuck, waiver can be filed at anytime, those applications did have a waivers (see 47 CFR 1.3) "The FCC may consider waivers at any time if good cause is shown." The U.S. Federal courts has gone even farther and said "The FCC MUST consider waivers" (see WAIT RADIO v FCC 1969)(see TURRO v FCC 1985)(See DUNIFER V FCC 1997) so once again steve YOUR A FUCKING IDIOT!!!!

You have told no turth about me

you make up lies like you claim I said I was indcuted into the ARMed forces by the Selective service

that you can tell if I drunk from more than 1000 miles away

that you can measure the feild strength at Omega One from about 100 miles away

the you have secert access to police file claiming I am redophile

that you have accessto something that allows you to "know" my wife is male, she isn't

all you tell a ineod and outright lies

Mark,

I think it's best if you don't post in radio threads anymore, you don't know what you're talking about. If Todd listens to your advice he could get into even more trouble than he already is and you could be charged as an accomplise in his illegal pirate station operations. Then you won't be able to attend Stevie, Woger, and Lloyd's N9OGL NAL enema beer party, and they very much want you there to help administer the enema's.

I know but then you think that ham radio can improved by adding back
code tests that NEVER should have been in place

I am not giving Todd advice I am pointing out the fact no eveidence
exists that Tood is doing anything ilegal in most terms that means he
is incocent

How long till we'll be drafting high school kids? It looks like we're
having another Vietnam.
And our "Christian" president has just voiced his endorsement of the
"morning after pill".

Funny, but I've always perceived that characteristic as being the

And what is 'neo-liberalism'? I don't know what that is supposed to
mean. I'm interested, please elaborate.

Sure there's "evidence to that effet", Morkie.

First off there's his numerous posts bragging about his violations,
then there's the photographs that HE had on his website...(The
illiegally modified HiMax...I have it copied to disc...He took it off
his site when I busted his chops about it...Too bad for him it's
archived now)

That's just fine with me bunkie! Today's crop of kids are
the most pampered soft-assed bunch of milk-fed babies
this frig of a country has produced to date. Draft em and ship
their ass to Iran so they can take over their oil wells and I can
get gas for cheap. Tell em they ain't commin back home till gas
costs $1.00 per gallon again. PHOOEY!

Another OK one with me. This way no young guy can worry if
the bimbo he just porked the night before will give him a call
a few weeks later and says she's preggo with HIS lovechild.
Drop the pill bitch and get back in bed an start doin the HORIZONTAL
POLKA!!

Will Tood get off with a warning, or will he be fined $5,000 for every day
of illegal operation? The August warnings will be mailed out next week,
and then we can look on http://www.fcc.gov and see if Tood made this month's
list of losers.

The FCC field strength van was spotted in Springfield, IL this month, so they
might have gotten a real good listen to Tood's pirate station.

Yeah,
Stupid governmental RF drafts and EMF abortions...
take away his radio and he won't do that again.
Makes me sick to think about all those satellites beaming crap down on us,
killing babies and causing teens to
enlist for no reason. Who would wanna defend this rat-hole anyway? I say we
all pack up and go to Somalia. It never snows there.
I really hate Reagan and Nixon both. Nixon especially, because all his
equipment was wired. Not a single RF device in the bunch.
Losers.

Come to think of it, why does the government continue to force these stupid
wireline telephones on us anyway?

The FCC today uses modified Ford Crown Victoria's with Police Interceptor
packages for In-Field study and Investigations. (Most are retired PD cars
bought at auction and refurbished) They haven't used "detector vans" since
the early 80's.

Easy to spot also. They usually have the "cop spotlite"
still installed on the driver's side and blue-on-white
US Govt GSA plates. There are usually NO extternal
antennas as roof and hood / trunk lids have been replaced
with composite polymer materials surfaces with RDF antennas
hidden therein.

Trust me. I KNOW WHAT I SPEAK. I used to work for the Corp
that re-furbished these cars for the GSA. Bottom line, if it's a
Crown Vic or an Impala or a older Caprice, it's usually Law Enforcement.

Code should never be memorized. One should train so that it is a reflex
action. Hear the code for the letter A and instantaneously write or
recognize it as an A.

Download the free G4FON software and follow the directions on the web site.

like I said ther has been long discusion on RRAP over this with the
code users insisting memorization became and evil thing once the NoCode
tech license came out

If you are tryigng emeroize code for the general licens eonly BTW don't

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look

Most of the time it's best to use the standard phonetics: alpha, bravo,
charlie, delta, echo, etc....

But in some situations, using an alternate phonetic set will make your
message much more clear & accurate, so it's better to use the alternate
phonetics when clearity and accuracy is paramount.

For example, using 'Anal Boy Ate Multiple Queers' for AB8MQ, is much more
clear and accurate.

First of all, it's President Bush.

Secondly, wait until a terrorist blows your family to kingdom come. You'll be one of the first to be asking how this could ever happen to you.

Did you serve in Viet Nam? You sound like someone who has no idea what it means to serve your country.

Just stick a sock in it.

Note: There is excellent reason to believe that the Department of
Defense is deliberately not reporting a significant number of the dead
in Iraq. We have received copies of manifests from the MATS that show
far more bodies shipped into Dover AFP than are reported officially. The
actual death toll is in excess of 10,000. (See the official records at
the end of this piece.)

You are the admitted liar, don't throw stones in glass houses.
Your "cease and desist" spamming is getting a bit stale. You are a boring
individual to say the least.
